From: Town of Farmington Planning and Building Department

According to the current ESDC guidelines, the NYSNLA concludes that the green industry services are currently deemed "essential". With that being said, general maintenance of residences or businesses such as mowing, spring cleanups, spraying and fertilizing may continue. However, the Town of Farmington is requiring that social distancing of at least six (6) feet is maintained while all work is being performed. The Town will be enforcing this restriction and if at any time you are found to not be in compliance with these restrictions a stop work order will be issued.
