Larry Antonelli
1615 Main Street
Silt, CO 81652

**RE: US 6/River Frontage Road Access Control Plan**
**Summary of One-on-One Meeting**

Dear Mr. Antonelli:

On behalf of the entire project team, the Town of Silt, Garfield County, and the Colorado Department of Transportation, I would like to thank you for participating in the on-going US 6/River Frontage Road Access Control Plan Study. The success of the study depends on public involvement and input. The goal of the project is to ensure any recommended changes in access would not have a negative impact to current or future property owners. On August 19, 2009 you participated in a one-on-one meeting with representatives from the project team to discuss access in the area where you currently own property or have an interest in future development. The following individuals were present at this meeting:

- Larry Antonelli
- David Sprague, PBS&J
- Betsy Suerth, Town of Silt
- Gale Carmoney, Town of Silt
- Daniel Roussin, CDOT
- Alisa Babler, CDOT

At your meeting you were provided the opportunity to listen to the project team describe the purpose of the study and provide details regarding the current and future access conditions that may have a direct impact to you. During the meeting you provided valuable input, which will be taken into consideration before any final recommendations are made and the study completed. The following is a brief summary of the key discussion items and/or decisions that occurred during your meeting:

- Mr. Antonelli indicated he did not have any concerns with the draft plan and he wanted to inform the project team that his access onto US 6 was used to move large farm equipment onto and off of his property.
- He indicated his access from 16th Street does not accommodate such movement well at the current time.
- The project team informed him that his access on US 6 would remain in place as long as his land use remained the same, but it may become restricted to right-in, right-out in the future.

The project team hopes that you agree with our summary of your meeting and the key discussion points. Should you have any questions regarding this letter please contact me by phone at **303-221-7275** or by email at dsprague@pbsj.com.

You may also learn more about the project at http://www.dot.state.co.us/US6Silt/index.cfm. Once again I would like to thank you for participating in the project and please do not hesitate to contact the project team if you have any questions or comments.

Sincerely,

David J. Sprague, P.E., PTOE
Consultant Project Manager

Yancy Nichol
903 Main Street, Suite A3
Carbondale, CO 81623

**RE: US 6/River Frontage Road Access Control Plan**
**Summary of One-on-One Meeting**

Dear Mr. Nichol:

On behalf of the entire project team, the Town of Silt, Garfield County, and the Colorado Department of Transportation, I would like to thank you for participating in the on-going US 6/River Frontage Road Access Control Plan Study. The success of the study depends on public involvement and input. The goal of the project is to ensure any recommended changes in access would not have a negative impact to current or future property owners. On August 19, 2009 you participated in a one-on-one meeting with representatives from the project team to discuss access in the area where you currently own property or have an interest in future development. The following individuals were present at this meeting:

- Yancy Nichol
- Ted Clark
- Jack Pretti
- David Sprague, PBS&J
- Betsy Suerth, Town of Silt
- Gale Carmoney, Town of Silt
- Daniel Roussin, CDOT
- Alisa Babler, CDOT

At your meeting you were provided the opportunity to listen to the project team describe the purpose of the study and provide details regarding the current and future access conditions that may have a direct impact to you. During the meeting you provided valuable input, which will be taken into consideration before any final recommendations are made and the study completed. The following is a brief summary of the key discussion items and/or decisions that occurred during your meeting:

- Mr. Nichol indicated the number of access points shown on the draft access plan was sufficient for his needs.
- He wanted the project team to move access #138 approximately 100 feet west.
- He wanted the plan to document a +/-100 feet for the final location of access #138 and #140.
- The project team agreed to these items and the changes will be made for the final plan.

The project team hopes that you agree with our summary of your meeting and the key discussion points. Should you have any questions regarding this letter please contact me by phone at 303-221-7275 or by email at dsprague@pbsj.com

You may also learn more about the project at http://www.dot.state.co.us/US6Silt/index.cfm. Once again I would like to thank you for participating in the project and please do not hesitate to contact the project team if you have any questions or comments.

Rick Ortega
P.O. Box 8287
Aspen, CO 81612

**RE: US 6/River Frontage Road Access Control Plan**
**Summary of One-on-One Meeting**

Dear Mr. Ortega:

On behalf of the entire project team, the Town of Silt, Garfield County, and the Colorado Department of Transportation, I would like to thank you for participating in the on-going US 6/River Frontage Road Access Control Plan Study. The success of the study depends on public involvement and input. The goal of the project is to ensure any recommended changes in access would not have a negative impact to current or future property owners. On August 19, 2009 you participated in a one-on-one meeting with representatives from the project team to discuss access in the area where you currently own property or have an interest in future development. The following individuals were present at this meeting:

- Rick Ortega
- Bob Myers
- David Sprague, PBS&J
- Betsy Suerth, Town of Silt
- Gale Carmoney, Town of Silt
- Daniel Roussin, CDOT
- Alisa Babler, CDOT

At your meeting you were provided the opportunity to listen to the project team describe the purpose of the study and provide details regarding the current and future access conditions that may have a direct impact to you. During the meeting you provided valuable input, which will be taken into consideration before any final recommendations are made and the study completed. The following is a brief summary of the key discussion items and/or decisions that occurred during your meeting:

- Mr. Ortega and Mr. Myers were concerned about the speed limit on the River Frontage Road, but the project team informed them that this issue would not be addressed as part of this study.
- They identified the need to reduce costs associated with roadway improvements (turn lanes).
- All parties agreed to close access #106 and to remove access #142 from the plan to save costs.
- The project team indicated that the other two accesses #143 and #144 would be full movement and possible traffic signals in the future.
- The development team will rework the internal circulation of the project based on the above changes.

The project team hopes that you agree with our summary of your meeting and the key discussion points. Should you have any questions regarding this letter please contact me by phone at 303-221-7275 or by email at dsprague@pbsj.com.You may also learn more about the project at http://www.dot.state.co.us/US6Silt/index.cfm. Once again I would like to thank you for participating in the project and please do not hesitate to contact the project team if you have any questions or comments.

Sincerely,

David J. Sprague, P.E., PTOE

Robert Sjorgmen
839 Whiteriver Avenue
Rifle, CO 81650-3515

**RE: US 6/River Frontage Road Access Control Plan**
**Summary of One-on-One Meeting**

Dear Mr. Sjorgmen:

On behalf of the entire project team, the Town of Silt, Garfield County, and the Colorado Department of Transportation, I would like to thank you for participating in the on-going US 6/River Frontage Road Access Control Plan Study. The success of the study depends on public involvement and input. The goal of the project is to ensure any recommended changes in access would not have a negative impact to current or future property owners. On August 19, 2009 you participated in a one-on-one meeting with representatives from the project team to discuss access in the area where you currently own property or have an interest in future development. The following individuals were present at this meeting:

- Robert Sjorgmen
- David Sprague, PBS&J
- Betsy Suerth, Town of Silt
- Gale Carmoney, Town of Silt
- Daniel Roussin, CDOT
- Alisa Babler, CDOT

At your meeting you were provided the opportunity to listen to the project team describe the purpose of the study and provide details regarding the current and future access conditions that may have a direct impact to you. During the meeting you provided valuable input, which will be taken into consideration before any final recommendations are made and the study completed. The following is a brief summary of the key discussion items and/or decisions that occurred during your meeting:

- Mr. Sjorgmen indicated the concepts shown in the draft plan seemed to fit well with the school needs.
- He liked the two accesses to school concept.
- He will take the information to the school district to get approval and provide the project team with a letter stating such.

The project team hopes that you agree with our summary of your meeting and the key discussion points. Should you have any questions regarding this letter please contact me by phone at 303-221-7275 or by email at dsprague@pbsj.com. You may also learn more about the project at http://www.dot.state.co.us/US6Silt/index.cfm. Douglas Wight
690 Front Street
Silt, CO 81652

**RE: US 6/River Frontage Road Access Control Plan**
**Summary of One-on-One Meeting**

Dear Mr. Wight:

On behalf of the entire project team, the Town of Silt, Garfield County, and the Colorado Department of Transportation, I would like to thank you for participating in the on-going US 6/River Frontage Road Access Control Plan Study. The success of the study depends on public involvement and input. The goal of the project is to ensure any recommended changes in access would not have a negative impact to current or future property owners. On August 19, 2009 you participated in a one-on-one meeting with representatives from the project team to discuss access in the area where you currently own property or have an interest in future development. The following individuals were present at this meeting:

- Douglas Wight
- David Sprague, PBS&J
- Betsy Suerth, Town of Silt
- Gale Carmoney, Town of Silt
- Daniel Roussin, CDOT
- Alisa Babler, CDOT

At your meeting you were provided the opportunity to listen to the project team describe the purpose of the study and provide details regarding the current and future access conditions that may have a direct impact to you. During the meeting you provided valuable input, which will be taken into consideration before any final recommendations are made and the study completed. The following is a brief summary of the key discussion items and/or decisions that occurred during your meeting:

- Mr. Wight identified the need to provide two access points between the three parcels he owns.
- The primary reason for the two access points would be to provide for commercial vehicle access to and from the properties.
- The project team agreed to show two access locations; one located along the south edge of US 6 directly opposite of Dogwood Street and a second one located along the east property line of Mr. Wight's eastern most property. The access on the east property line would be a shared access with the property directly to the east and would not be solely for Mr. Wight's property.
- Both of these accesses may be restricted to right-in, right-out access in the future.

The project team hopes that you agree with our summary of your meeting and the key discussion points. Should you have any questions regarding this letter please contact me by phone at 303-221-7275 or by email at dsprague@pbsj.com.You may also learn more about the project at http://www.dot.state.co.us/US6Silt/index.cfm. Once again I would like to thank you for participating in the project and please do not hesitate to contact the project team if you have any questions or comments.
