This is a non-regulated product

HIGH PRESSURE CAR WASH is designed for self-serve equipped wash bays and automatic high pressure wash drive through. This premium product is utilized to safely clean cars, pick-ups, and other vehicles. It will clean painted surfaces without damage. This product will not remove waxes, finishes, or new car sealant and is a ph matched moderate foam detergent. It will work in cold water as well as hot water, and rinse free at any temperature. Designed for heavy duty cleaning such as drive through car wash.

DIRECTIONS FOR USE: For car washes, use the following dilutions: SELF SERVICE-Premix 1 part soap to 10 parts water and meter solution at 1:35. FULL SERVICE (NON-RECLAIM)-Premix 1 part soap to 25 parts water and meter solution at 1:70. FULL SERVICE (RECLAIM)-1:700. Each day after charging, add 1 to 2 quarts depending on soil load in reclaim. For hand car washing use 1 to 3 ounces of chemical per bucket of water. For use in hot pressure washers, apply to the surface at the rate of 1 part cleaner to 225 parts water. For use in cold pressure washers at the rate of 1 part cleaner to 150 parts water. When cleaning with pressure washers, always apply cleaning solutions from the bottom up on a dry surface. Always detail clean from the bottom up and rinse from the top down. DO NOT ALLOW TO DRY ON SURFACES. ALWAYS RINSE THOROUGHLY.
