QUICK DRY RINSE AID

PRODUCT CODE

38240

SIZES AVAILABLE

As Formulated

38240-05 5 Gallon Container

▣ Weighs 50 lbs.

38240-55 55 Gallon Drum

▣ Weighs 500 lbs.

TECHNICAL INFORMATION

Color: Clear

Odor: Lemon

pH concentrate: 5.5

This is a non-regulated product

Quick Dry Rinse Aid

QUICK DRY RINSE AID is a highly concentrated drying agent. Application at the rinse cycle of automatic vehicle washing systems result in sheeting of excess water from the surface and less blower or chamois time to complete the wash process.

DIRECTIONS FOR USE:

This is a concentrate and must be metered or diluted at a range of 1 part **QUICK DRY** to 100 parts water, up to 1 part **QUICK DRY** to 600 parts water. Your dilutions will be dependent on water hardness and method of application of **QUICK DRY** to the car surface. A good starting point through high pressure washer equipment would be to use at the rate of 1 part **QUICK DRY** to 300 parts water. Rate will vary due to water conditions.
