- Legal Protection
- Personal Privileges
- Financial Freedom
- Truthful News
- Ethical Living

Many of us are disillusioned with the misrepresentation we have received from our elected officials at all levels. We are not proposing another political party or even attempting to fix a very broken system.

When each of us visits a merchant and gets poor service or is treated dishonestly, we usually make one of two decisions:

- 1) Ask for satisfaction from a manager; should this fail, we may escalate the action to higher management or use legal means.
- 2) Take our business elsewhere.

When we view the worldwide systems in place today, we usually see “countries” and “political systems”. We see what we have been told to see, through our history books and news media. This, however, may not be correct.

What if the planet and the United States in particular were being run by other rules than those we find in congress or in our courts? If there were another set of rules running the legal and political system, could you not claim it and use it to empower yourself? Indeed.

Who Funded Your Bank Loan?
Learn How to Convert Debt to Cash

NOT a Loan – A Settlement Award!

Use to Pay Off ...

- Mortgages
- Credit Cards
- IRS/CRA
- Vehicle Loans
- Student Loans
- Business Loans

Administrative programs can provide you cash in as little as 60 days to pay off all your debts and legal fees.

Not a loan but a proprietary administrative remedy (no court) releasing large sums of undiscovered value buried within every bank loan*. This process is valid no matter when the loan occurred, whether years ago or current, paid, sold, late, written off, repossessed or foreclosed. This remedy can significantly improve your finances.

Protect Your Assets

Own Nothing – Control Everything

Asset Protection From:

- Suits
- Judgments
- Liens
- Garnishments

If there were legal and ethical means to secure our lifelong savings and investments, all would find comfort in this knowledge.

Today, the odds are better than not that you will be sued by someone – whether you have done something improper or not. Through our judicial system, which increasingly does not favor the individual, you could lose everything you have worked a lifetime to secure.

The “Patriot Act” is just one example of the power authorities have taken over you without requiring any stated charges or right to council. The IRS/CRA places “notice of liens” regularly on individuals’ properties or sends “notice of garnishment” to employers, all done without court action and may be illegal. The people and our government systems stand by and allow this to happen to us daily. Mostly out of ignorance, our counties, banks and employers do not test the law and allow these abuses.

Protecting your hard-earned assets from intended or mistaken harm is neither difficult nor just for the rich. Your home, autos, valuables and bank accounts can all be protected legally and safely through well-established onshore and offshore solutions.

You are only a target to anyone when you have assets that can be attached or taken.
You can own nothing and control everything.
