B MILLERVILLE, MARYLAND 21108

Attention! Important! Changes!

During the 2009 Legislative Session a new law was passed which will strive to enhance the safety of Maryland elevators. The new law mandates that an owner of an elevator unit operating in Maryland contract with an authorized third party elevator inspector to perform a periodic annual inspection of their elevator unit. ***State Inspectors will no longer be performing these inspections.***

Information about this new law and a copy of the legislation is available on our web site at: www.dllr.state.md.us/labor/ In order to clarify the new process, I have arranged "Stakeholder" meetings where we will be discussing the recent changes to the Elevator Safety Law and how these changes will affect your business. During this informative meeting the following topics will be discussed:

- The Process, an overview of the changes to the law and what needs to be done, who will do it and how will it get done.
- Responsibilities of the Owner.
 - Maintenance of elevator equipment.
 - Tests and inspections are performed on time and in accordance with the law and regulations.
 - Re-registration of elevator units with the Commissioner.
 - Scheduling 5 year comprehensive inspection with the State.
- Responsibilities of 3rd Party Inspector
 - Inspections and tests performed in accordance with the Safety Code.
 - Documentation of inspections
 - Submission of reports
- Authorized 3rd Party Inspectors
 - Requirements
 - Registration
 - Authorization
- Quality Control Inspection Program
- Penalties for non-compliance
- Scheduling final acceptance inspections with the State and enforcement of applicable Safety Code.

The meetings will take place at the following locations on the date specified. All meetings will start at 9:00 AM and end at 12:00 PM. Please respond to stone.debbie@dol.gov if you plan on attending a meeting, indicating the meeting location and number of attendees.
