

Standardized WMD Awareness Training Courses

The Georgia Office of Homeland Security - Georgia Emergency Management Agency (OHS-GEMA) offers standardized WMD awareness training courses.

These courses are free and offered to numerous jurisdictions across the state of Georgia for all public safety disciplines. Credits will be provided to the public safety, law enforcement, fire, and EMS communities.

These courses adhere to the Office of Domestic Preparedness Emergency Response guidelines and complement the Georgia Homeland Security Strategic Plan.

Course topics include:

- prevention and deterrence
- chemical agents
- biological agents
- radiological agents
- explosive devices

To schedule a course at your location, please call OHS-GEMA training office at (478) 993-4612.
