8(m) - Woman Owned Small Business  
Minority Women Business Enterprise

## Read What Others Say!

Your program was compelling, organized and educational. The business-based subject matter applied to each one of the CEOs at various points. But that's not what made it fantastic. You expected and received nothing less than full participation and engagement from each person in the room. As your session unfolded, I realized I was receiving a Gift.

Lexi Dougherty, CEO, DotCom Design Studio

Program accomplishes something very few leadership resources have done – challenged the mental attitude and aptitude of leaders and requiring them to do something ... application.

John barker, SVP, Ark Leisure Group, Inc

Program is worth your time to do and discover your full potential as a leader.

Michael Robinson, General Manager,  
Microsoft – Middle East

Crowned Grace works with you to develop, groom and empower your leaders by ensuring a strategic focus on your organization's overall vision, mission and objectives.

Dr. Stephanie A. Parson  
President  
Crowned Grace

This includes training and development, business consulting, leadership development, strategic planning, supply chain management, mergers & acquisitions, project management training and information technology.

With customizable solutions, workshops, seminars and services, we are dedicated and committed to providing you with the products and services required to ensure you have the proper resources and tools to improve performance and create value for your organization to succeed in the 21st Century.

**We work with you to develop and empower your leaders in achieving your organization's strategic objectives!**

We provide your team members with the skills and tools to succeed by providing high quality services which in turn allow you to achieve your strategic objectives.

This is done through our people transformation services, our technology transformation services and our business transformation services.

**People Transformation-** To date, over 4,000 professionals from the United States, Brazil & Mexico have attended one or more of our 35+ customizable leadership workshops! Our workshop sizes range from 5 to 500+ participants. Our programs are divided into four categories: Leading Yourself, Leading Teams, Leading Organizations and Functional Specific programs. In addition to exceptional training, all participants receive Continuing Education Units (CEUs) to assist them in maintaining their professional certifications. CGI also offers various leadership assessments (Hogan Forecast, MBTI, DiSC, EQi, Conflict Mode Instrument & Diversity/ Inclusion Instruments).

**Leading Yourself Workshops** are designed to provide professionals with comprehensive tools and techniques for improving personal productivity. Examples of these sessions include: Enhanced Productivity Skills, Developing Emotionally Intelligent Leadership Strategies, Communication, Negotiation, Presentation Skills & Innovative Leadership Competencies!

**Leading Teams Workshops** are designed for those who are or will be responsible for accomplishing organizational goals through people. Examples of these sessions include: Skills for Supervisors, Conflict Resolution, Team Development, Team Motivation, Decision Making, The Art of Leadership & Creative Vision, Goal Setting and Strategies!

**Leading Organizations Workshops** are designed for mid-to executive level management responsible for the continuous leadership development of others and building high performance and strategically focused organizations. Examples of these sessions include: Leadership, Vision and Organizational Reality, Advanced Leadership Skills, Business Planning & Improving Performance Through The Balanced Scorecard!

**Business Improvement Consulting Services** are designed around specific needs including: Strategic Planning, Business Transformation, Productivity Improvement, Supply Chain Management, Change Management, Project Planning, PMO, IT Project Management and Customer Services.

## Technology Transformation

With a wide range of IT consulting services, we help you drive down costs by serving as an instrumental partner in your technology planning. We leverage our deep category knowledge, market insight and best-in-class tools to deliver strategically focused solutions.

## Business Transformation

CGI brings the breadth of experience and problem-solving leadership of a seasoned consulting partner, integrates this experience with market-specific knowledge, partnered with the insight of internal company experts to deliver business solutions which win in the market. Our expertise includes Strategic Planning, Productivity Improvement, Change Management, Project Management & Project Management Offices, Risk Management & Supply Chain Management.

## All programs include:

1. An action planning session to develop a 120 day action plan
2. A 30-, 60-, 90- & 120 day follow-up webcast to ensure participants are implementing planned actions and to address any concerns
3. And are customizable to your organization
