

THE VISION

McClain Ministries is an International Communications Network that puts the POWER OF PRAYER at your fingertips. Founded on personal relationships and consistent bible study, we develop both the spiritual and practical application of biblical principles in the lives of people around the world.

The E-List is a seed that was planted by Almighty God. McClain Ministries is the incubator that is chosen to launch the birth of this project. The idea is to:

- *Capture and bring together the synergy of all local and global young and adult entrepreneurs who are Kingdom of God Builders*
- *Encourage and support the vision and dreams of each business*
- *Offer free membership into an entrepreneur network maintained on the McClain Ministries website*

The electronic list will put the business and service of each member at the fingertip of billions of consumers through free Internet exposure from the list.

The exposure is to provide honest and excellent service. We are not just building a network, but a family of integrity who serves. We are not just standing alone but..."Standing Together As 1"...working together as 1 as 1 great light for the whole world to see. So let your light shine...For as He is...so are we!

E-List**

About the List:

Get details about services you won't find in the phone book.

The E-List is a National Database for consumers that is developed by a word-of-mouth network. It is a growing collection of people's real-life experiences with local area services. The people who join the E-List are like you – looking for a way to find trustworthy businesses that perform high-quality work. Rather than digging through the phone book's yellow pages, they check McClain Ministries' E-List to find out what services people in their area use.

With McClain Ministries' E-List you get the real scoop on both national and local services. It's the real scoop because first of all, businesses don't pay to be on the E-List, nor can they put themselves on the list. Only the screening committee can recommend a business. Yes, a real-live person reviews and follows up on every registration form.

Also, through the E-List, you have the ability to quickly and easily tell other E-List members about your experience with a specific business. That's really great news for the businesses that do quality work – and not so great news for the businesses that don't. So when people know that you're an E-List member, we've found that you're more likely to get a quick response time.
