INSTALLATION INSTRUCTIONS

STEP ONE – Determine Location

1. Determine location where the Platinum 2-Wheel Wall Storage Rack is to be installed. Remember, check for electrical, gas, water, and/or other items that could be compromised or damaged during the installation.
2. The area where the Platinum 2-Wheel Wall Storage Rack is to be attached, **MUST BE** a solid structure and capable of holding the Platinum 2-Wheel Wall Storage Rack and the item(s) being stored.
3. The location selected **MUST PROVIDE** adequate clearance to walls and other obstructions.

STEP TWO – Installation

4. Determine location where the Platinum 2-Wheel Wall Storage Rack is to be installed. Remember, check for electrical, gas, water, and/or other items that could be compromised or damaged during the installation. This unit must be attached to a solid vertical wall stud (2 x 4 or greater) or similar type of solid material.
5. Locate exact centerline of wall stud.
6. Place unit on exact centerline of the wall studs. Adjust height as desired. Mark mounting holes on wall.
7. Drill pilot holes for mounting screws marked in step above. Remember to use a bit about 1/2 the size of the mounting screws.
8. Place unit back on exact centerline and attach unit to wall, screwing the mounting screws through the unit and into the pilot holes. Tighten screws until unit is snug against the wall.
