BIG AND SMALL

BY ELAINE COLGRAVE

In this big
and small activity
There are many things
To see and do
Like colour the big
dinosaur red
And colour the
small one blue

Guess who lives on
the smallest planet
It is Zonty
in activity two
Draw him a line
to find his way home
And he will be
friends with you

Colour Easter eggs
In activity four
Yes you can
colour them all
Then when you
Are through
Go back again
And circle the eggs
Which are small

Then on the next page
you'll see
lots of shapes
Colour matching shapes
the same
Then draw a line from
the biggest to smallest
It is part of
the activities game

Colour in the trucks
and cut them all out
When you're done
Line them up in a row
Put the biggest truck
at the top
The smallest
at the bottom
Then they are
ready to go

Congratulations
You're at chapter ten
Now you know
big from small
On your way to school
Try and find

different things
The biggest and
smallest of all.

_____ On your efforts and hard work to learn the difference between big and small.

Dear Parent/Caregiver,
_____ has completed the mini activity on big and small.

How you can help extend on this concept . . .

Discuss big and small items in your home, such as small plates, big plates, big tree, small tree.

You will find lots of items around your home. Compare your hand with your child and discuss big and small, allow your child to ask lots of questions.

When on an outing or in the car look for items along the way that you can challenge your child.

i.e.- Which building is the biggest?
How many big trucks can you count?

These pages do not need to be stapled into your activity books. Print off separately for cutting activity
