

**Full Environmental Assessment Form
Part 3 – Evaluation of the Magnitude and
Importance of Project Impacts and
Determination of Significance**

**Project: Farmington Market Center IZ Rezoning Action
Date: August 18, 2022**

Attachment to Reasons Supporting This Determination:

The Farmington Town Board, as the designated lead agency under the State's SEQR Regulations, has received, reviewed, and accepted the latest amendment to Part 3 of the FEA, dated August 18, 2022, for the above referenced Project. By accepting this amended document, the Town Board further acknowledges that there is a pending independent Traffic Engineering Review being conducted by Fisher Associates upon trip generation and trip distribution information provided by SRF Associates and McFarland Johnson. The Town Board's acceptance of the August 18, 2022, Part 3 of the FEA, is evidence of the Town's declared need for this independent Traffic Engineering Review and, upon receipt and acceptance of said Review, may further amend the Part 3 of the FEA for this Project before making a determination of significance.

The Town Board, by accepting this amended Part 3 of the FEA, and providing copies thereof to the identified involved agencies, demonstrates its' compliance with the State's SEQR Regulations [§ 617.3 of 6NYCRR Part 617] and ongoing commitment for making an informed determination of significance upon said Action.
