

## From the Desk of the Supervisor *Peter Ingalsbe*

We have been very busy since our June 2022 newsletter. The 3<sup>rd</sup> of July fireworks were enjoyed by approximately 3000 residents and our parks have been getting extensive use with the good weather this year. Plan on July 3<sup>rd</sup> in 2023 for another evening of fireworks, a band and food trucks.

March 2023 you will receive a notice from our assessor on the revaluation of your property assessment. As in past newsletters I want to let you know that property sales continue at a slower pace for September – November, but most selling prices continue to be greater than the current assessed value of the properties. Some examples are.

**October sales** 169 Elder sold for \$230,000, assessed at \$139,900, 155 Huckleberry sold for \$285,000 and assessed for \$164,300. 114 Gannett Rd. sold for \$205,000 assessed for \$125,400, 5933 Kennebec Ct. sold for \$375,000 and was assessed for \$252,300. 6203 Hunter Drive sold for \$300,000 and was assessed for \$205,000, 6006 Calm Lake sold for \$247,150 assessed for \$164,500.

**November sales** 1120 Harlow LN. sold for \$400,000 and was assessed for \$281,500, 6152 Buckskin Dr. sold for \$295,000 assessed for \$179,700. 6053 Amber DR. sold for \$400,000 and was assessed for \$344,200. 5992 Amber DR. sold for \$419,000 assessed for \$327,500. 5430 Shortsville Rd. sold for \$500,000 assessed for \$270,800. 1773 Payne Rd. sold for \$241,000 assessed for \$142,900.

The 2023 Town Budget started in June 2022 and was passed in November by the Town Board. General and highway tax rates were lowered 2.39% from \$1.02 to \$1.00 per thousand of assessed value. The fire tax is up 2.60% and the CFWD water tax is up 1.75% in Farmington and 4.12% in Canandaigua. Sales tax and mortgage taxes received in 2022 were better than we expected which will help offset higher costs for fuel and materials purchased. We have listed many of the current and potential future building projects later in this newsletter trying to keep you informed. I would like to wish everyone a happy holiday and successful new year.

As always, my office door is always open for questions that you might have. Phone 315-986-8100 ext. 2 or email [pingalsbe@farmingtonny.org](mailto:pingalsbe@farmingtonny.org)

## Conservation Board *Kimberly Boyd, Chairperson*

### ***Conservation Board Update...***

The Conservation Board meets on the fourth Monday of the month at 7pm at the Town Hall. The Board is currently looking for members to join the team to help review and comment on proposed development within the Town. If you are interested in learning more, contact Kim Boyd at [kboyd@bmepec.com](mailto:kboyd@bmepec.com). In October, the Board conducted their second Adopt-A-Highway event cleaning up trash and debris along State Route 332 between Canandaigua Farmington Town Line Road and Country Road 41. They noted a decrease in the amount of trash collected this fall with only 5 bags of debris versus the 20 bags collected previously in the Spring. The Board plans to conduct a third event in the Spring of 2023. Contact Kim if you are interested in helping. If possible, place your trash and recycling bins outside in the morning before you leave for work versus leaving them out all night, especially during high wind events.

The Board is currently working on updating the Town's Open Space Index. The index identifies properties within the Town that are currently vacant and organizes these properties by priority of preservation. The index includes maps that identify open areas that are required to be set aside out of subdivision plats, public owned open spaces, open areas preserved by non-public organizations and open areas having conservation, historical, and scenic significance. The Conservation Board started the process of updating the Index by comparing uses listed in the Real Property Tax Land Use Codes for existing vacant properties with aerial images found on the Ontario County Online Resources (OnCOR) website. If a property's land use changed, Board members noted the change and will pass along the information for further verification to the Town Assessor. On questionable areas, Board members conducted field visits to verify use. OnCOR is a free tool residents can use to look up parcel information such as owner, acreage, land use, structural information, and assessed values. The Board's next step is to update the narrative description of the Index which will include revisions to the following sections: wetlands, creeks and floodplains, drumlins, public open spaces, commercial open spaces, and historic sites. The Board is looking for input on updating these sections and anyone with interest, or historic and specific knowledge of these resources can contact Kim for additional information.

## Planning & Development

*Ronald Brand, Director of Development*

### **Transportation Alternatives Program (TAP) ...**

Right-of-way acquisition work is continuing on the Phase 1 Portion of the Town's Sidewalk/Trail Connection \$2,214,00.00 Capital Project which involves obtaining easements across the frontages of several parcels of land located within the identified project areas. In addition, survey crews are in the field gathering information to enable mapping of the various sections of sidewalks, the pedestrian bridge crossing of Beaver Creek and additional connections to the Auburn Trail that are to be installed as part of this project. The next step will involve preparing detailed preliminary engineering drawings for the construction of sidewalk sections, the pedestrian bridge crossing of Beaver Creek and the connections to the Auburn Trail.

Once these design drawings have been prepared then a more detailed analysis will be conducted to identify how much of the original project subareas can be accomplished with the available construction funds provided in the capital project. This evaluation is necessary given the six-month delay involved with submitting our application (last September 2021) and then learning of our grant award (May 2022). It was during this period that there was and continues to be significant increases in product materials, delivery delays in receiving cement, delays in delivery of concrete to development sites, labor shortages, and the biggest question that remains is how long into the future these conditions will continue. There will be a public information meeting held (probably next spring), both in person and virtually, where residents will be informed of the intended improvements and public input will be sought. Then the design plans and public input will be reviewed by staff within the Region 4 Office of the New York State Department of Transportation who have the final say. Following that decision, detailed final engineering drawings will be prepared along with formal bid documents to be used in awarding a contract for the construction of these pedestrian/bicycle improvements. Construction is scheduled to commence in the spring of 2024 and be complete by the end of that year. As each of these stages progress updates will be provided in both future Town Newsletters and the bi-weekly Town Operations Reports to the Town Board which are posted on the Town's website throughout the year.

### **Delaware River Solar Project Update – Fox/Yellow Mills Road Site...**

This solar project has reached Mechanical Completion, meaning most of the construction on the three (3) parcels of land containing approximately 45 acres is complete and the three solar systems are ready to begin testing and commissioning. Commissioning allows for the generation of solar energy and connection to the power grid. Site activity will be reduced during the winter months as these phases are completed. The aerial photo shown below is looking north across portions of the Roger and Carol Smith farmland. Their house and barns are located along Yellow Mills Road which is

shown in the right side of the picture. Fox Road, which runs east & west, is shown at the top of the picture.

### **Parks & Recreation Master Plan Update...**

Starting early next year, the Town will begin the process for updating the "2018 Edition of the Town of Farmington Parks and Recreation Master Plan." Work on this plan update, a part of the Town of Farmington Comprehensive Plan, is expected to be complete by the end of 2023. During the coming year Town Recreation Advisory members, Town Staff, the Town's Engineers and the public will be provided opportunities to weigh-in on the projects under consideration. We are looking for a few residents to serve on an advisory committee and ask you express your interest in serving to [pingalsbe@townoffarmingtonny.org](mailto:pingalsbe@townoffarmingtonny.org).

One of the major components of the plan update will involve a more detailed design for the expansion to the Farmington Town Park Site and the Town Parks Department facility located along County Road 8 and Collett Roads. You may remember that senior class students at Syracuse University's School of Civil Architectural and Environmental Engineering prepared concepts for providing new recreational facilities on a portion of the 55-acre site adjacent to the west of the current Town Complex along County Road 8.

Their concepts were reported in the last edition of the Town's Newsletter.

### **Notice and Petition Relating to More Restrictive Construction Standards...**

Earlier this year, the New York State Division of Building Standards and Codes informed the Town of amendments that had been made to the State's Uniform Fire Prevention and Building Code and the State Energy Conservation Construction Code (generally referred to as the Uniform Code). This is the first major update to the Uniform Code which was adopted in 1981.

The Town has been administering the Uniform Code for the past forty-one years and on November 22, 2022 adopted the amendments (Local Law No. 7 of 2022) that had been made by the State. Following this action, the Town submitted a Notice and Petition to the State Division of Building Standards and Codes to allow more restrictive construction standards. These standards, if accepted by the State, would allow the Town to require sprinkler systems in all new and substantially renovated commercial and industrial structures in lieu of those structures having more than 10,000 square feet in building area.

Basically, the petition, if approved, would allow Farmington to administer the new Uniform Code regulations in the same manner which has been in existence in the Town of Victor for years. The Fire Chiefs of the Farmington, Manchester and Victor Fire Departments, as well as the Town's Fire Marshal and Town Code Enforcement Officers have all supported these more restrictive standards citing the benefits associated with lower loss of lives and a significant lower extent of damage to structures.

The Town Board, in authorizing the petition noted that requiring automatic sprinklers, no matter square footage, will: (1) simplify and thus better ensure Town Code compliance by having uniformity; and (2) will better enhance the public's safety while minimizing property damage or loss.

### ***Projects Under Construction or Completed during 2022...***

1. **TOMRA NY RECYCLING** - Expansion of their glass recycling line and site improvements at their facility located on Loomis Road. Completed in November 2022.
2. **Reliant Federal Credit Union** - A new building with drive-up automated tellers located between Burger King Restaurant and the Farmington Commons Plaza Building, on the Farmington Commons Plaza site at the southwest corner of State Routes 96 & 332. Under construction anticipating opening in March 2023.
3. **Rochester Gas & Electric (Avan Grid) Station 127** - Expansion of this electric substation located along the east side of Hook Road, south of the New York State Thruway (I-90). Improvements include an expanded power plant and battery storage units. The final phase of this three-phase project is scheduled for completion in the spring of 2023.
4. **Rochester Gas & Electric (Avan Grid) Station 168** - Expansion of this electric substation located along State Street adjacent to the Village of Manchester is underway and is scheduled for completion in the summer of 2023.
5. **Zoe's Ice Cream & T.K.O. Salon** - Located at the northwest corner of State Route 96 and Commercial Drive, this new building will be opening later this summer providing both ice cream products and hair care and styling. T.K.O. (Total Knock Out) Salon opened this fall, while Zoe's is still awaiting delivery of their cabinets, counters and coolers (another victim of the current economic climate).
6. **URMC Medical Building** - Located within the Auburn Junction Plaza, west side of State Route 332 and south of Carmen's Way, is a new 10,000 square foot medical office building associated with the University of Rochester Medical Center and Thompson Health. The remaining 9,000 square foot portion of the building awaits a tenant. Site work was completed in early November and interior work has begun. This facility is scheduled to open to the public early next year.

7. **Farmington GLN Realty** - This site, located along the south side of State Route 96, west of the intersection with State Route 332. A total of four (4) commercial sites are being prepared with one (1) site known to be developed as a fast-food restaurant with drive-through window service. Also, part of the first phase is a flex space office building, the first of six (6) such buildings proposed for the interior portions of the site. This project has been placed on hold for the time being, with no known restart date.
8. **Auburn Meadows Subdivision, Section 8S** - This is the last section of the Auburn Meadows Subdivision Tract which began in 2004. There is a total of thirty-one (31) lots located along both sides of Ackerman Way, between the Marion Way and Jasper Drive intersections. Dedication of the last section of Ackerman Way and other utilities is anticipated in early 2023 with construction to follow next year. Ryan Homes reports that several pending sales are awaiting the dedication process to be completed so Building Permits may be issued.
9. **Country Max Offices, Warehouse and Distribution Center** - A 72,000 square foot building will begin construction this summer along with related site improvements on the parcel of land located at the southwest corner of Hook and Collett Roads. As part of this project, sidewalks will be extended east along the north side of Collett Road from the FedEx Site then crossing to the south side and continuing to the intersection. Building construction is expected to begin in the spring of 2023.

### ***Projects Undergoing Construction in 2023...***

1. **Blackwood Industrial Park** - Two (2) 204,000 square foot [a combined total of 408,000 square feet] warehouse/distribution facilities at the northwest corner of County Roads 8 & 41. This project has received final approval from the Planning Board and the Town awaits the filing of a Letter of Credit to allow construction to start sometime in early 2023.
2. **Hathaway's Corners Apartments** - Eleven (11) buildings each containing eight (8) apartment units and five (5) buildings with enclosed garages and trash receptacles buildings are to be located at the southeast corner of the intersection of Savalla Boulevard and Carmen's Way. Site work began this fall and the site's development is expected to be completed in the fall of 2023.
3. **Farmington Market Center** - A pending rezoning application, for approximately 18 acres of land, to provide for the first phase of expansion to the former Wade's Plaza site including the relocation of the Canandaigua National Bank Farmington Branch Office, a Tops Fueling Station, and a Mavis Tire Center. Also

included in this first phase will be construction of additional on-site sidewalks, a new design of the existing plaza entrance from State Route 96 and Streetscape improvements across the site's frontage along State Route 96. The second phase of this project will include additional commercial sites (no businesses have yet been specified). Once the land is rezoned and final site plan approvals have been granted construction could start in the summer of 2023.

4. **Farmbrook Subdivision, Sections 7 A&B** – Final Re-Subdivision Plat Approval for Section 7A, Farmbrook Subdivision Tract, to allow for a total of 48 lots with single-family dwellings to be constructed on a total of 18.34 acres of land is scheduled for next month. The project involves the development of the remaining lands located in the southeast corner of the Farmbrook Neighborhood Project and located along both sides of Meadowbrook Lane, connecting with Oatfield Drive, and in Section 7B (Alfalfa Crescent).
5. **Power Property Incentive Rezoning Project**- This project is located along the north side of State Route 96, just east of the Finger Lakes Racing and Gaming Casino and south of Collett Road. It involves approximately 146 acres of land being proposed for 216 single-family lots and designated General Business and Limited Industrial uses along the Route 96 frontage. The Town Board will be holding a public hearing on the rezoning request in January and, if approved, the project will then proceed through the Planning Board's Subdivision and Site Plan process. Site development could start next fall on the project provided there are no major delays in the approval process.

## Building Department

*Dan Delpriore, Code Enforcement Officer*

Hello Farmington Residents! It's the most wonderful time of the year.... winter! Although we have not seen a lot of that white stuff yet, we all know that it is right around the corner.

Some of you may have noticed already that we have some new faces in our department. Recently, we welcomed our Construction Inspectors as part of our Building Department Team. Matt Heilmann and Dave Orians have relocated their offices to our department and will now work out of the Town Hall. They both come with a great deal of knowledge and experience and round out our team nicely. We also welcomed Carol Marvel to our team in the Building Department. She is that voice you hear at the other end of the phone when you reach out to our department. She has taken over handling the permit process and can answer any of your questions. She is a long time Farmington resident, so she brings knowledge of the Town with her. Please join me in welcoming Matt, Dave, and Carol to our department!

Our Fire Marshal, Augie Gordner, would like to remind the residents that Santa is coming to Town so be sure your chimneys are cleaned! Not only do we not want his entrance blocked but also do not want any chimney fires. Be sure to test and inspect all your smoke detectors and carbon monoxide detectors on a yearly basis. If you do not have these safety devices, they are a cost-effective way to ensure your family's safety and should be added to all occupied structures. Inspect for damage, press the test buttons for test alarm, and replace batteries if needed. **It is good practice to replace batteries annually regardless of test results.**

A reminder that parking over sidewalks is against the Town Code. Please do not park your vehicles on the sidewalk or in your driveway covering a portion of the sidewalk. Doing so can cause safety concerns for pedestrians and make sidewalk snow clearing operations increasingly difficult.

As the winter arrives, and your projects are nearing completion, it is important to arrange for final inspections to close out any open building permits on your property to receive a Certificate of Compliance/Occupancy.

**CERTIFICATE OF OCCUPANCY/COMPLIANCE:** Your project is not complete until a final inspection has been performed by our office and a Certificate of Occupancy or Certificate of Compliance has been issued. It is the homeowner's legal responsibility to ensure a building permit has been issued, inspections have been performed, and Certificate of Occupancy/ Compliance are issued prior to the building permits expiration.

### **The Ontario-Wayne Stormwater Coalition (OWSC) would like to give you some tips for reducing pollutions this winter:**

1. Shovel as soon as possible after a snowstorm. As a result, less ice will form, and you won't need to use as much salt or de-ice.
2. Use safe and effective alternatives to salt. Remember that salt is not effective below 15 degrees Fahrenheit. Sand or kitty litter will give you traction when it's too cold for salt.
3. Plant native species, that are salt tolerant, near paved areas. Not only will these species be able to survive despite the road salt, but they will also act as a protective buffer for local waterways.
4. Make sure the storm drains closest to your property are clear of snow and other debris. Do not shovel snow into storm drains since they empty directly into local creeks.

**WE ENCOURAGE ALL RESIDENTS TO CONTACT THE BUILDING DEPARTMENT AT (315) 986-8100 IF YOU HAVE ANY QUESTIONS REGARDING POTENTIAL PROJECTS OR CODE ENFORCEMENT.**

## Assessor's Office *Paul Arndt,* Assessor

As with the past several months, the Farmington assessor's office is working diligently towards the goal of re-assessing the town's properties in a fair and equitable manner. By keeping assessments up-to-date, assessors can go a long way toward ensuring that taxpayers do not pay more or less than their fair share of taxes. We are in partnership with the Ontario County Tax Services Department, under the leadership of Director Donna LaPlant, in seeing this project to a successful conclusion.

The field work, which is primarily curb-side inspections of all parcels in the town, is basically complete. The task at hand next is to compare the field notes with the properties' files. This ensures that the visible inventory for all properties matches what is in the files. Any discrepancies are corrected to make sure we have accurate data to make our assessments.

Sales data is the key to any property valuation effort. Ms. LaPlant's department at the county has gathered these figures, and it is now our job to see how this sales data compares to the current assessed values.

As anyone who has kept track of current market trends knows, sales have been volatile for an extended period. It is not uncommon in our town for the sale price to be significantly higher than the current assessment, in some cases as much as \$100,000 over assessment.

As the assessor, I anticipate these trends could have a considerable impact on our final results.

**At the Town Board meeting on Tuesday January 24<sup>th</sup> at 7:00 PM, I along with the Ontario County Tax Services Department, will be making a presentation to the Town Board regarding the revaluation process and discussing sales trends within the town. All are invited to attend this informative meeting either in person or via zoom.**

It has been a pleasure communicating with you. Feel free to contact me at 315-986-8100 ext. 4 or email: [parndt@farmingtonny.org](mailto:parndt@farmingtonny.org)

## Highway Department *Tim Ford, Acting Highway Superintendent*

Summer 2022 was busy with the 4<sup>th</sup> of July and final phase of Canandaigua-Farmington Town Line Road being mostly complete, as supply issues with water pipe holding up the completion of sidewalk on the east side that will be completed in 2023.

The dry summer allowed all the road work to go smoothly and on time. Also with the dry weather, we were able to get some storm water ponds cleaned along with ditch work and culvert pipe replacement. Crews have also been busy cutting many dead ash trees along our road rights of way. If you have a concern with a tree that you think is danger of falling into the road, please call the Highway Department at (315) 986-5540.

The winter driving season is upon us, our primary focus is preparedness. You can help out Highway Department as we clean roadways and maintain safe driving conditions this season:

### **Adjust your driving speed according to the conditions:**

Along with poor visibility and blowing and drifting, our snowplow drivers usually move at slower speeds. Plow trucks require more time in intersections to dump, reverse and move to the other side of the roadway.

**Plow your drive to the sides, not the road:** Piling snow from your driveway to the right (as you face the road) will help keep the town plows from pushing snow back onto your driveway. **Snow blowing or plowing from your driveway into or across the road is illegal**-please avoid creating hazards for motorists, pedestrians and the plow truck drivers.

**Keep kids away from snowbanks:** Do not allow children to play in snow adjacent to the road or highway, especially in cul-de-sacs. And pay attention to where students are waiting for the school bus.

**Remember motorists that there is no parking from November 1<sup>st</sup> through April 1<sup>st</sup> along the highway, in snowplow turnarounds and school bus turnarounds.** If your vehicle becomes disabled, first notify the Sheriff's Office, then try to remove the vehicle as soon as possible. If the operator fails to follow these mentioned steps, the vehicle may get towed at the owner's expense for hampering snow removal.

### **PARKS**

Beaver Creek Park, in the Auburn Meadows Subdivision, has been completed and is available for the community to enjoy.

In 2023, two playgrounds are due to be replaced, one in Mertensia Park and one in Farmbrook Park, along with other improvements to Farmbrook Park, the Grove Park, and Town Park (Pavilion).

The Parks Department will be handling sidewalk snow removal this year. We try our best to stay on the sidewalks but there are times they may veer off and do damage to the lawn. As a homeowner, if you could add additional markers on one side of the sidewalk this would help guide our operators. We will repair lawn damage in the spring. We would also ask that when clearing snow from your driveway that you do not pile snow on the sidewalks as this slows the clearing process greatly. We appreciate any help you can give them.

Park neighbors are encouraged to call the Sheriff's Office at the non-emergency number 585-394-4560 when you notice any suspicious activities or conditions in any of the town parks.

### Help Keep Our Town Parks Enjoyable for Everyone

We're proud to make our parks available for all to enjoy. Our Town employees work hard to maintain these spaces for sports, activities, play and gatherings. We appreciate your help in keeping parks clean and safe – please remember to carry out or properly dispose of waste. Thank you for helping us keep our parks ready and welcoming for our whole community!

For more information call the Town of Farmington Highway Department at (315) 986-5540 or visit our website at [http://www.townoffarmingtonny.com/highway\\_parks](http://www.townoffarmingtonny.com/highway_parks) for more information.

Email: [tford@farmingtonny.org](mailto:tford@farmingtonny.org)

## Farmington's Rich History

*Donna Herendeen, Town Historian*

Office hours Tuesday 10 a.m. – 2 p.m.

Greetings Readers!

Well, I must say that 2022 has been a very challenging year for me.....both professionally and personally! As I near the end of the year without my father and a few less friends, there is something I wish to share. Those who know me have heard me say that "history is what gives a community it's identity". Awareness of that history is what binds us together, gives us a base to stand on and a place from where and how to move forward. That awareness was achieved this year due to others who gave of their time and efforts. A big thank you goes out to everyone (you know who you are) who supported me.

The Bi Centennial quilt is being cleaned and will soon be displayed again at the town hall. Thank you to Tim Ford and his "fellas" for helping with this.

Your historian has a new Facebook page at Farmington Town Historian. Let me know what you think about it!

Help is needed to work with me on an editing project. The only requirement is knowledge of cursive writing is a must. Please email me at [farmhistorian@yahoo.com](mailto:farmhistorian@yahoo.com) if interested. I would love your help.

Happy holidays everyone,

Donna Herendeen, Town Historian  
[farmhistorian@yahoo.com](mailto:farmhistorian@yahoo.com)

## From the Desk of the Town Clerk

*Michelle Finley*

### 2023 TAX COLLECTION

Town and County Taxes will be mailed out at the end of December and are due in full in January without penalty. Payments made in person by check, cash, or credit card (with convenience fees) can be made at the Town Clerk's Office, located at 1000 County Road 8, Farmington. Office hours are

Monday through Friday 8:00 a.m. to 4:00 p.m., Wednesday until 6:00 p.m.

For your convenience, there is a drop box located to the right of the entrance. The drop box is checked daily by 8 a.m. on regular business days. Payments collected by 8 a.m. will be considered received on the prior business day.

Payments without penalty are due by January 31, 2023. This applies even if you choose the installment option which requires that the first payment is paid by January 31, 2023. Any checks incorrectly made out, have the wrong amount written, or postdated will be returned and subject to a penalty if received by the Tax Receiver after the penalty free period.

The due date for bills is January 31st without penalty, beginning February 1st a 1% penalty will be assessed and beginning March 1st a 2% penalty will be assessed.

Taxes may be made in installments with half being accepted by January 31st and interest will be assessed monthly on the remaining balance. See your tax bill for amounts.

For payments made by mail, the USPS postmark (not a postage meter mark) is used as the payment date. If there is no postmark, the date received will be used as the payment date.

For your convenience, you can pay your taxes online (fees apply) from January 1<sup>st</sup> to March 31<sup>st</sup>. Ontario County switched tax collection software and unfortunately our current vendor to pay by credit card does not support this new software therefore the town had to switch vendors. Please note fees have changed and there is no longer an E-Check option. Visit <https://payv3.xpress-pay.com/org/06B705A5FF01411>.

If you are spending the winter months out of town and would like your tax bill mailed to another address, you must contact the Tax Receiver in writing. Please include a phone number in case we need to contact you.

### NEW OFFICE HOURS

The Town Clerk's Office is open Monday through Friday, 8:00 a.m. to 4:00 p.m., and on Wednesday evenings until 6:00 p.m. providing a variety of services to our community. We issue marriage licenses, hunting and fishing licenses, dog licenses, and handicapped parking permits. We also collect water and sewer payments. To reach us by phone, our number is 315-986-8100 press option 1 for Town Clerk.

### NEW DOG LICENSE FEES

Beginning January 1, 2023, the fees for licensing dogs will be:

Spayed/Neutered	\$20.00
Not Spayed/Neutered	\$30.00

\*\*Town residents, age 65 or older, may license their dog(s) for \$12.00 each for dogs that are spayed or neutered and \$22.00 for dogs that are not spayed or neutered.

\*\*TOWN PARKS AND LODGE RESERVATIONS START THE FIRST BUSINESS DAY IN JANUARY 2023 TO FARMINGTON RESIDENTS ONLY THEN STARTING IN FEBRUARY TO EVERYONE ELSE\*\*

## Get Involved in Our Town

All Town of Farmington board and committee meetings are posted on the Town website's calendar. You can sign up on the website to receive email notices, as well.

### **We currently have vacancies on the Conservation Board and Agricultural Advisory Board.**

If you are interested in becoming a committee or board member, please send your resume and letter of interest to:

Marcy Daniels  
1000 County Road 8  
Farmington, NY 14425

Or via email: [mdaniels@farmingtonny.org](mailto:mdaniels@farmingtonny.org)

## Town of Farmington Boards & Committees

**Town Board:** Meets the 2<sup>nd</sup> and 4<sup>th</sup> Tuesday of each month at 7 p.m. Supervisor: Peter Ingalsbe

**Planning Board:** Meets the 1<sup>st</sup> and 3<sup>rd</sup> Wednesday of each month at 7 p.m. Chairperson: Ed Hemminger

**Zoning Board of Appeals:** Meets the 4<sup>th</sup> Monday of each month at 7 p.m. Chairperson: Jeremy Marshall

**Conservation Board:** Meets the 4<sup>th</sup> Monday of each month at 7:00 p.m. Chairperson: Kim Boyd

**Agricultural Advisory Committee:** Meeting the 3<sup>rd</sup> Thursday of each month at 6:30 p.m. when announced. Chairperson: Henry Adams III

**Historical Preservation:** Meets the 2<sup>nd</sup> Thursday of each month at 6:30 p.m. Chairperson: Jessica King

**Recreation Advisory Board:** Meeting the 2<sup>nd</sup> Tuesday of each month at 6:30 p.m. at Mertensia Lodge Chairperson: Julie LaRue; Recreation Director: Mark Cain

Meeting dates, times and locations are subject to change. Please check with the Town Clerk's office to confirm.
