**Local Law No. 14 of the year 2021**

“Amendments to Part II, General Legislation, Chapter 90, Illicit Discharges and Connections to Storm Sewers, of the Farmington Town Code.”

(Insert Title)

Be it enacted by the **Town Board** (Name of Legislative Body)

~~County~~  
~~City~~  
Town of Farmington  
~~Village~~

as follows:

Section 1. Part II, Chapter 90 of the Town of Farmington Code, entitled “Illicit Discharges and Connections to Storm Sewers,” is hereby deleted in its’ entirety and is hereby replaced in its’ entirety as follows:

**§ 90-1 Purpose; intent.**

The purpose of this chapter is to provide for the health, safety and general welfare of the citizens of the Town of Farmington through the regulation of non-stormwater discharges to the municipal separate storm sewer system (MS4) to the maximum extent practicable as required by federal and state law. This chapter establishes methods for controlling the introduction of pollutants into the MS4 in order to comply with requirements of the SPDES General Permit for Municipal Separate Storm Sewer Systems. The objectives of this chapter are:

- A. To meet the requirements of the SPDES General Permit for Stormwater Discharges from MS4s, Permit No. GP-02-02 or as amended or revised;
- B. To regulate the contribution of pollutants to the MS4, since such systems are not designed to accept, process or discharge non-stormwater wastes;
- C. To prohibit illicit connections, activities and discharges to the MS4;

(1)

March 23, 2021

- D. To establish legal authority to carry out all inspection, surveillance and monitoring procedures necessary to ensure compliance with this chapter; and
- E. To promote public awareness of the hazards involved in the improper discharge of trash, yard waste, lawn chemicals, pet waste, wastewater, grease, oil, petroleum products, cleaning products, paint products, hazardous waste, sediment and other pollutants into the MS4.

§ 90-2 **Definitions.**

Whenever used in this chapter, unless a different meaning is stated in a definition applicable to only a portion of this chapter, the following terms will have meanings set forth below:

**BEST MANAGEMENT PRACTICES (BMPs)** - Schedules of activities, prohibitions of practices, general good house keeping practices, pollution prevention and educational practices, maintenance procedures, and other management practices to prevent or reduce the discharge of pollutants directly or indirectly to stormwater, receiving waters, or stormwater conveyance systems. BMPs also include treatment practices, operating procedures and practices to control site runoff, spillage or leaks, sludge or water disposal or drainage from raw materials storage.

**CLEAN WATER ACT** - The Federal Water Pollution Control Act (33 U.S.C. § 1251 et seq.) and any subsequent amendments thereto.

**CONSTRUCTION ACTIVITY** - Activities requiring authorization under the SPDES permit for stormwater discharges from construction activity, GP-02-01, as amended or revised. These activities include construction projects resulting in land disturbance of one or more acres. Such activities include, but are not limited to, clearing and grubbing, grading, excavating and demolition.

**DEPARTMENT** - The New York State Department of Environmental Conservation.

**DESIGN PROFESSIONAL** - A New York State licensed professional engineer or licensed architect.

(2)

**HAZARDOUS MATERIALS** - Any material, including any substance, waste, or combination thereof, which because of its quantity, concentration, or physical, chemical, or infectious characteristics, may cause, or significantly contribute to, a substantial present or potential hazard to human health, safety, property or the environment when improperly treated, stored, transported, disposed of or otherwise managed.

**ILLICIT CONNECTIONS** - Any drain or conveyance, whether on the surface or subsurface, which allows an illegal discharge to enter the MS4, including but not limited to:

- A. Any conveyances which allow any non-stormwater discharge, including treated or untreated sewage, process wastewater, and wash water to enter the MS4 and any connections to the storm drain system from indoor drains and sinks, regardless of whether said drain or connection had been previously allowed, permitted, or approved by an authorized enforcement agency; or
- B. Any drain or conveyance connected from a commercial or industrial land use to the MS4, which has not been documented in plans, maps, or equivalent records and approved by an authorized enforcement agency.

**ILLICIT DISCHARGE** - Any direct or indirect non-stormwater discharge to the MS4, except as exempted in § 90-5. B. of this chapter.

**INDIVIDUAL SEWAGE TREATMENT SYSTEM** - A facility serving one or more parcels of land or residential households, or a private, commercial or institutional facility that treats sewage or other liquid wastes for discharge into the groundwaters of New York State, except where a permit for such a facility is required under the applicable provisions of Article 17 of the Environmental Conservation Law.

**INDUSTRIAL ACTIVITY** - Activities requiring the SPDES permit for discharges from industrial activities except construction, GP-98-03, as amended or revised.

**MS4** - Municipal Separate Storm Sewer System.

**MUNICIPALITY** - The Town of Farmington.

MUNICIPAL SEPARATE STORM SEWER SYSTEM - A conveyance, or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels or storm drains):

- A. Owned or operated by the Town of Farmington;
- B. Designed or used for collecting or conveying stormwater;
- C. Which is not a combined sewer; and
- D. Which is not part of a publicly owned treatment works (POTW) as defined at 40 CFR 122.2.

NON-STORMWATER DISCHARGE - Any discharge to the MS4 that is not composed entirely of stormwater.

PERSON - Any individual, association, organization, partnership, firm, corporation or other entity recognized by law and acting as either the owner or as the owner's agent.

POLLUTANT - Dredged spoil, filter backwash, solid waste, incinerator residue, treated or untreated sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand and industrial, municipal, agricultural waste and ballast discharged into water; which may cause, or might reasonably be expected to cause, pollution of the waters of the state in contravention of the standards.

PREMISES - Any building, lot, parcel of land, or portion of land, whether improved or unimproved, including adjacent sidewalks and parking strips.

SPDES GENERAL PERMIT FOR STORMWATER DISCHARGES FROM MUNICIPAL SEPARATE STORMWATER SEWER SYSTEMS GP-02-02 - A permit, under the New York State Pollutant Discharge Elimination System (SPDES), issued to municipalities to regulate discharges from municipal separate storm sewers for compliance with EPA-established water quality standards and/or to specify stormwater control standards.

(4)

**SPECIAL CONDITIONS -**

- A. Discharge compliance with water quality standards: the condition that applies where a municipality has been notified that the discharge of stormwater, authorized under their MS4 permit, may have caused, or has the reasonable potential to cause or contribute to, the violation of an applicable water quality standard. Under this condition, the municipality must take all necessary actions to ensure that future discharges do not cause, or contribute to, a violation of water quality standards.
  
- B. 303(d) listed waters: the condition in the municipality's MS4 permit that applies where the MS4 discharges to a 303(d) listed water. Under this condition, the stormwater management program must ensure no increase of the listed pollutant of concern to the 303(d) listed water.
  
- C. Total maximum daily load (TMDL) strategy: the condition in the municipality's MS4 permit where a TMDL, including requirements for control of stormwater discharges, has been approved by EPA for a waterbody or watershed into which the MS4 discharges. If the discharge from the MS4 did not meet the TMDL stormwater allocations prior to September 10, 2003, the municipality was required to modify its stormwater management program to ensure that reduction of the pollutant of concern, specified in the TMDL, is achieved.
  
- D. The condition in the municipality's MS4 permit that applies if a TMDL is approved in the future by EPA for any waterbody or watershed into which an MS4 discharges. Under this condition, the municipality must review the applicable TMDL to see if it includes requirements for control of stormwater discharges. If an MS4 is not meeting the TMDL stormwater allocations, the municipality must, within six months of the TMDL's approval, modify its stormwater management program to ensure that reduction of the pollutant of concern specified in the TMDL is achieved.

**STATE POLLUTANT DISCHARGE ELIMINATION SYSTEM (SPDES)**

**STORMWATER DISCHARGE PERMIT** - A permit issued by the Department, pursuant to 6 NYCRR Part 750, that authorizes the discharge of pollutants to waters of the state.

**STORMWATER** - Rainwater, surface runoff, snowmelt and drainage.

(5)

March 23, 2021

STORMWATER MANAGEMENT OFFICER (SMO) - The Code Enforcement Officer, or Deputy Code Enforcement Officer, of the Town of Farmington, who shall enforce this chapter. The SMO may also be designated by the municipality to accept and review stormwater pollution prevention plans, forward the plans to the applicable municipal board and inspect stormwater management practices.

303(d) LIST - A list of all surface waters in the state for which beneficial uses of the water (drinking, recreation, aquatic habitat, and industrial use) are impaired by pollutants, prepared periodically by the Department as required by § 303(d) of the Clean Water Act. The 303(d) listed waters are estuaries, lakes and streams that fall short of state surface water quality standards and are not expected to improve within the next two years.

TMDL - Total maximum daily load.

TOTAL MAXIMUM DAILY LOAD - The maximum amount of a pollutant to be allowed to be released into a waterbody so as not to impair uses of the water allocated among the sources of that pollutant.

WASTEWATER- Water that is not stormwater, is contaminated with pollutants and is, or will be, discarded.

§ 90-3 Applicability.

This chapter shall apply to all water entering the MS4 generated on any developed and undeveloped lands unless explicitly exempted by an authorized enforcement agency.

§ 90-4 Responsibility for administration.

The Stormwater Management Officer (SMO) shall administer, implement and enforce the provisions of this chapter. Such powers granted, or duties imposed upon, the authorized enforcement official may be delegated in writing by the SMO as may be authorized by the municipality.

(6)

§ 90-5 Discharge and connection prohibitions; exceptions.

A. Prohibition of illegal discharges. No person shall discharge, or cause to be discharged, into the MS4 any materials other than stormwater except as provided in § 90-5. B. The commencement, conduct or continuance of any illegal discharge to the MS4 is prohibited except as described as follows.

B. Exceptions.

1. The following discharges are exempt from discharge prohibitions established by this chapter, unless the Department or the municipality has determined them to be substantial contributors of pollutants: waterline flushing or other potable water sources, landscape irrigation or lawn watering, existing diverted stream flows, rising groundwater, uncontaminated groundwater infiltration to storm drains, uncontaminated pumped groundwater, foundation or footing drains, crawl space or basement sump pumps, air-conditioning condensate, irrigation water, springs, water from individual residential car washing, natural riparian habitat or wetland flows, dechlorinated swimming pool discharges, residential street wash water, water from fire-fighting activities and any other water source not containing pollutants. Such exempt discharges shall be made in accordance with an appropriate plan for reducing pollutants.
2. Discharges approved in writing by the SMO to protect life or property from imminent harm or damage, provided that such approval shall not be construed to constitute compliance with other applicable laws and requirements, and further provided that such discharges may be permitted for a specified time period and under such conditions as the SMO may deem appropriate to protect such life and property while reasonably maintaining the purpose and intent of this chapter.
3. Dye testing in compliance with applicable state and local laws is an allowable discharge but requires a verbal notification to the SMO prior to the time of the test.

4. The prohibition shall not apply to any discharge permitted under an SPDES permit, waiver, or waste discharge order issued to the discharger, and administered under the authority of the Department, provided that the discharger is in full compliance with all requirements of the permit, waiver or order, and other applicable laws and regulations, and provided that written approval has been granted for any discharge to the MS4.

C. Prohibition of illicit connections.

1. The construction, use, maintenance or continued existence of illicit connections to the MS4 is prohibited.
2. This prohibition expressly includes, without limitation, illicit connections made in the past, regardless of whether the connection was permissible under law or practices applicable, or prevailing, at the time of connection.
3. A person is considered to be in violation of this chapter if the person connects a line conveying sewage to the municipality's MS4, or allows such a connection to continue.

§ 90-6 Failing individual sewage treatment systems.

No persons shall operate a failing individual sewage treatment system in areas tributary to the municipality's MS4. A failing individual sewage treatment system is one that has one or more of the following conditions:

- A. The backup of sewage into a structure.
- B. Discharges of treated or untreated sewage onto the ground surface.
- C. A connection or connections to a separate stormwater sewer system.
- D. Liquid level in the septic tank above the outlet invert.

- E. Structural failure of any component of the individual sewage treatment system that could lead to any of the other failure conditions as noted in this section.
- F. Contamination of off-site groundwater.

§ 90-7 Activities contaminating stormwater.

- A. Activities that are subject to the requirements of this section are those types of activities that:
  - (1) Cause or contribute to a violation of the municipality's MS4 SPDES permit.
  - (2) Cause or contribute to the municipality being subject to the special conditions, as defined in § 90-2, Definitions, of this chapter.
- B. Such activities include failing individual sewage treatment systems, as defined in § 90-6, improper management of pet waste or any other activity that causes or contributes to violations of the municipality's MS4 SPDES permit authorization. All individual on-site wastewater treatment systems must also be in compliance with Chapter 126 of the Code of the Town of Farmington.
- C. Upon notification to a person that he or she is engaged in activities that cause, or contribute to, violations of the municipality's MS4 SPDES permit authorization, that person shall take all reasonable actions to correct such activities such that he or she no longer causes, or contributes to, violations of the municipality's MS4 SPDES permit authorization.

§ 90-8 Prevention, control, and reduction of stormwater pollutants by use of best management practices.

- A. Best management practices. Where the SMO has identified illicit discharges, as defined in § 90-2, or activities contaminating stormwater, as defined in § 90-7, the municipality may require implementation of best management practices (BMPs) to control those illicit discharges and activities.
  - (1) The owner or operator of a commercial or industrial establishment shall provide, at his or her own expense, reasonable protection from accidental discharge of prohibited materials, or other wastes, into the MS4 through the use of structural and nonstructural BMPs.

(9)

- (2) Any person responsible for a property or premises who is, or may be, the source of an illicit discharge, as defined in § 90-2, or an activity contaminating stormwater, as defined in § 90-7, may be required to implement, at said person's expense, additional structural and nonstructural BMPs to reduce or eliminate the source of pollutants to the MS4.
  - (3) Compliance with all terms and conditions of a valid SPDES permit authorizing the discharge of stormwater associated with industrial activity, to the extent practicable, shall be deemed compliant with the provisions of this section.
- B. Individual sewage treatment systems and response to special conditions requiring no increase of pollutants or requiring a reduction of pollutants. Where individual sewage treatment systems are contributing to the municipality's being subject to the special conditions, as defined in § 90-2 of this chapter, the owner or operator of such individual sewage treatment systems shall be required to:
- (1) Maintain and operate individual sewage treatment systems as follows:
    - a. Inspect the septic tank annually to determine scum and sludge accumulation. Septic tanks must be pumped out whenever the bottom of the scum layer is within three inches of the bottom of the outlet baffle or sanitary tee, or the top of the sludge is within 10 inches of the bottom of the outlet baffle or sanitary tee.
    - b. Avoid the use of septic tank additives.
    - c. Avoid the disposal of excessive quantities of detergents, kitchen wastes, laundry wastes and household chemicals.
    - d. Avoid the disposal of cigarette butts, disposable diapers, sanitary napkins, trash and other such items.

(2) Repair or replace individual sewage treatment systems as follows:

- a. In accordance with 10 NYCRR, Appendix 75-A to the maximum extent practicable.
- b. A design professional licensed to practice in New York State shall prepare design plans for any type of absorption field that involves:
  - i. Relocating or extending an absorption area to a location not previously approved for such.
  - ii. Installation of a new subsurface treatment system at the same location.
  - iii. Use of an alternate system or an innovative system design or technology.
- C. A written certificate of compliance shall be submitted by the design professional to the municipality at the completion of construction of the repair or replacement system.

§ 90-9 Suspension of access to MS4.

- A. The SMO may, without prior notice, suspend MS4 discharge access to a person when such suspension is necessary to stop an actual or threatened discharge, which presents, or may present, imminent and substantial danger to the environment, to the health or welfare of persons or to the MS4. The SMO shall notify the person of such suspension within a reasonable time thereafter, in writing, of the reasons for the suspension. If the violator fails to comply with a suspension order issued in an emergency, the SMO may take such steps, as deemed necessary, to prevent or minimize damage to the MS4 or to minimize danger to persons.

- B. Suspension due to the detection of illicit discharge. Any person discharging to the municipality's MS4 in violation of this chapter may have his or her MS4 access terminated if such termination would abate or reduce an illicit discharge. The SMO will notify a violator, in writing, of the proposed termination of its MS4 access and the reasons therefor. The violator may petition the SMO for a reconsideration and hearing. Access may be granted by the SMO if he/she finds that the illicit discharge has ceased and the discharger has taken steps to prevent its recurrence. Access may be denied if the SMO determines, in writing, that the illicit discharge has not ceased, or is likely to recur. A person commits an offense if the person reinstates MS4 access to premises terminated, pursuant to this section, without the prior approval of the SMO.

§ 90-10 Industrial or construction activity discharges.

Any person subject to an industrial or construction activity SPDES stormwater discharge permit shall comply with all provisions of such permit. Proof of compliance with said permit may be required in a form acceptable to the municipality prior to the allowing of discharges to the MS4.

§ 90-11 Access to facilities; monitoring of discharges.

- a. Applicability. This section applies to all facilities that the SMO must inspect to enforce any provision of this chapter, or whenever the authorized enforcement agency has cause to believe that there exists or potentially exists, in or upon any premises, any condition which constitutes a violation of this chapter.
- b. Access to facilities.
- (1) The SMO shall be permitted to enter and inspect facilities subject to regulation under this chapter as often as may be necessary to determine compliance with this chapter. If a discharger has security measures in force, which require proper identification and clearance before entry into its premises, the discharger shall make the necessary arrangements to allow access to the SMO.

(12)

- (2) Facility operators shall allow the SMO ready access to all parts of the premises for the purposes of inspection, sampling, examination and copying of records, as may be required to implement this chapter.
- (3) The municipality shall have the right to set up, on any facility subject to this chapter, such devices as are necessary, in the opinion of the SMO, to conduct monitoring and/or sampling of the facility's stormwater discharge.
- (4) The municipality has the right to require the facilities, subject to this chapter, to install monitoring equipment as is reasonably necessary to determine compliance with this chapter. The facility's sampling and monitoring equipment shall be maintained, at all times, in a safe and proper operating condition by the discharger at its own expense. All devices used to measure stormwater flow and quality shall be calibrated to ensure their accuracy.
- (5) Unreasonable delays in allowing the municipality access to a facility subject to this chapter is a violation of this chapter. A person who is the operator of a facility subject to this chapter commits an offense if the person denies the municipality reasonable access to the facility for the purpose of conducting any activity authorized or required by this chapter.
- (6) If the SMO has been refused access to any part of the premises from which stormwater is discharged, and he/she is able to demonstrate probable cause to believe that there may be a violation of this chapter, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program designed to verify compliance with this chapter, or any order issued hereunder, then the SMO may seek issuance of a search warrant from any court of competent jurisdiction.

## § 90-12 Notification of spills.

Notwithstanding other requirements of law, as soon as any person responsible for a facility or operation, or responsible for emergency response for a facility or operation, has information of any known or suspected release of materials which are resulting or may result in illegal discharges or pollutants discharging into the MS4, said person shall take all necessary steps to ensure the discovery, containment and cleanup of such release. In the event of such a release of hazardous materials, said person shall immediately notify emergency response agencies of the occurrence via calling 911 emergency dispatch services. In the event of a release of nonhazardous materials, said person shall notify the SMO, in person or by telephone or facsimile, no later than the next business day. Notifications, in person or by telephone, shall be confirmed by written notice, addressed and mailed to the SMO, at the municipality within three business days of the telephone notice. If the discharge of prohibited materials emanates from a commercial or industrial establishment, the owner or operator of such establishment shall also retain an on-site written record of the discharge and the actions taken to prevent its recurrence. Such records shall be retained for at least three years.

## § 90-13 Enforcement; penalties for offenses.

A. Notice of violation. When the municipality's SMO finds that a person has violated a prohibition or failed to meet a requirement of this chapter, he/she may order compliance, by written notice of violation, to the responsible person. Such notice may require, without limitation:

- (1) The elimination of illicit connections or discharges;
  - (2) That violating discharges, practices or operations shall cease and desist;
  - (3) The abatement or remediation of stormwater pollution or contamination hazards and the restoration of any affected property;
  - (4) The performance of monitoring, analyses and reporting;
  - (5) Payment of a fine; and
- (14)

(6) The implementation of source control or treatment BMPs. If abatement of a violation and/or restoration of affected property is required, the notice shall set forth a deadline within which such remediation or restoration must be completed. Said notice shall further advise that, should the violator fail to remediate or restore within the established deadline, the work will be done by a designated governmental agency, or a contractor, and the expense thereof shall be charged to the violator.

B. Penalties. In addition to or as an alternative to any penalty provided herein or by law, any person who violates the provisions of this chapter shall be guilty of a violation punishable by a fine not exceeding \$250 or imprisonment for a period not to exceed 15 days, or both, upon conviction. Each week's continued violation shall constitute a separate additional violation.

§ 90-14 Appeal of notice of violation.

Any person receiving a notice of violation may appeal the determination of the SMO to the Town Board of the Town of Farmington within 15 days of its issuance, which Board shall hear the appeal within 30 days after the filing of the appeal and, within five days of making its decision, file its decision in the office of the Municipal Clerk and mail a copy of its decision by certified mail to the discharger.

§ 90-15 Corrective measures.

A. If the violation has not been corrected pursuant to the requirements set forth in the notice of violation or, in the event of an appeal, within five business days of the decision of the Town Board upholding the decision of the SMO, then the SMO shall request the owner's permission for access to the subject private property to take any and all measures reasonably necessary to abate the violation and/or restore the property.

- B. If refused access to the subject private property, the SMO may seek a warrant in a court of competent jurisdiction to be authorized to enter upon the property to determine whether a violation has occurred. Upon determination that a violation has occurred, the SMO may seek a court order to take any and all measures reasonably necessary to abate the violation and/or restore the property. The cost of implementing and maintaining such measures shall be the sole responsibility of the discharger.

§ 90-16 Injunctive relief.

It shall be unlawful for any person to violate any provision or fail to comply with any of the requirements of this chapter. If a person has violated or continues to violate the provisions of this chapter, the SMO may petition for a preliminary or permanent injunction restraining the person from activities that would create further violations or compelling the person to perform abatement or remediation of the violation.

§ 90-17 Alternative remedies.

- A. Where a person has violated a provision of this chapter, he/she may be eligible for alternative remedies in lieu of a civil penalty, upon recommendation of the Municipal Attorney and concurrence of the Municipal Code Enforcement Officer, where:

- (1) The violation was unintentional.
- (2) The violator has no history of previous violations of this chapter.
- (3) Environmental damage was minimal.
- (4) The violator acted quickly to remedy violation.
- (5) The violator cooperated in the investigation and resolution.

B. Alternative remedies may consist of one or more of the following:

- (1.) Attendance at compliance workshops.
- (2.) Storm drain stenciling or storm drain marking.
- (3.) River, stream or creek cleanup activities.

§ 90-18       Violations deemed public nuisance.

In addition to the enforcement processes and penalties provided, any condition caused or permitted to exist in violation of any of the provisions of this chapter is a threat to public health, safety, and welfare, and is declared and deemed a nuisance, and may be summarily abated or restored at the violator's expense, and/or a civil action to abate, enjoin, or otherwise compel the cessation of such nuisance may be taken.

§ 90-19       Remedies not exclusive.

The remedies listed in this chapter are not exclusive of any other remedies available under any applicable federal, state or local law, and it is within the discretion of the authorized enforcement agency to seek cumulative remedies.

**Section 2.**     If any clause, sentence, paragraph, section or part of this local law shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or part thereof directly involved in the controversy in which such judgment shall have been ordered.

**Section 3.**     This local law shall take effect immediately upon filing with the Secretary of State of the State of New York.

**(Complete the certification in the paragraph that applies to the filing of this local law and strike out that which is not applicable.)**

**1. (Final adoption by local legislative body only.),**

I hereby certify that the local law annexed hereto, designated as local law No. 14 of 2021 of the Town of Farmington was duly passed by the Farmington Town Board on April 27, 2021, in accordance with the applicable provisions of law.

**2. (Passage by local legislative body with approval, no disapproval or repassage after disapproval by the Elective Chief Executive Officer<sup>1</sup>.)**

I hereby certify that the local law annexed hereto, designated as local law No. \_\_\_\_\_ of 20\_\_ of the (County)(City)(Town)(Village) of \_\_\_\_\_ was duly passed by the \_\_\_\_\_ on \_\_\_\_\_, 20\_\_, and was (approved)(not approved)(repassed after disapproval) by the \_\_\_\_\_ and was deemed duly adopted on \_\_\_\_\_, 20\_\_ in accordance with the applicable provisions of law.

**3. (Final adoption by referendum.)**

I hereby certify that the local law annexed hereto, designated as local law No. \_\_\_\_\_ of 20\_\_ of the (County)(City)(Town)(Village) of \_\_\_\_\_ was duly passed by the \_\_\_\_\_ on 20\_\_, and was (approved)(not approved)(repassed after disapproval) by the \_\_\_\_\_ on \_\_\_\_\_, 20\_\_. Such local law was submitted to the people by reason of a (mandatory)(permissive) referendum, and received the affirmative vote of a majority of the qualified electors voting thereon at the (general)(special)(annual) election held on \_\_\_\_\_, 20\_\_, in accordance with the applicable provisions of law.

**4. (Subject to permissive referendum and final adoption because no valid petition was filed requesting referendum.)**

I hereby certify that the local law annexed hereto, designated as local law No. \_\_\_\_\_ of 20\_\_ of the (County)(City)(Town)(Village) of \_\_\_\_\_ was duly passed by the \_\_\_\_\_ on \_\_\_\_\_, 20\_\_, and was (approved)(not approved)(repassed after disapproval) by the \_\_\_\_\_ on \_\_\_\_\_, 20\_\_. Such local law was subject to permissive referendum and no valid petition requesting such referendum was filed as of \_\_\_\_\_, 20\_\_, in accordance with the applicable provisions of law.

<sup>1</sup> Elective Chief Executive Officer means or includes the chief executive officer of a county elected on a county- wide basis or, if there be none, the chairperson of the county legislative body, the mayor of a city or Village, or the supervisor of a Town where such officer is vested with the power to approve or veto local laws or ordinances.

**5. (City local law concerning Charter revision proposed by petition.)**

I hereby certify that the local law annexed hereto, designated as local law No. \_\_\_\_\_ of 20\_\_ of the City of \_\_\_\_\_ of having been submitted to referendum pursuant to the provisions of section (36)(37) of the Municipal Home Rule Law, and having received the affirmative vote of a majority of the qualified electors of such city voting thereon at the (special)(general) election held on \_\_\_\_\_, 20\_\_, became operative.

**6. (County local law concerning adoption of Charter.)**

I hereby certify that the local law annexed hereto, designated as local law No. \_\_\_\_\_ of 20\_\_ of the County of \_\_\_\_\_, State of New York, having been submitted to the electors at the General Election of November \_\_\_\_, 20\_\_, pursuant to subdivisions 5 and 7 of section 33 of the Municipal Home Rule Law, and having received the affirmative vote of a majority of the qualified electors of the cities of said county as a unit and a majority of the qualified electors of the Towns of said county considered as a unit voting at said general election, became operative.

**(If any other authorized form of final adoption has been followed, please provide an appropriate certification.)**

I further certify that I have compared the preceding local law with the original on file in this office and that the same is a correct transcript therefrom and of the whole of such original local law, and was finally adopted in the manner indicated in paragraph 1, above.

\_\_\_\_\_  
Clerk of the Town
