John:

I have just reviewed the attached Open House Flyer by DRS. For the record has anyone considered the gross conflict of interest it is to allow anyone with pending Planning Board and Zoning Board of Appeals applications to use Town Facilities to offer a sales pitch for approval of their applications. Regardless of any disclaimers they are an interested party given accommodation by the government that will pass judgement on the applications. Personally I view this in very grave terms for anyone involved in the process of approving this Open House. I have forwarded the email to our counsel since apparently she was not listed as receiving your email this despite our filed FOIL request

James F. Foley
