Farmington, NY 14425

RE: Project Status Log

Dear Town of Farmington Planning Board,

Delaware River Solar (“DRS”) is pleased to have the opportunity to bring the benefits of Community Solar to the Town of Farmington. DRS has proposed three (3), 2.388 MWac Community Solar facilities that will generate, in the aggregate, approximately 7 MW of clean and “green” electricity that will be distributed over the existing electrical grid (the “Projects”).

Submitted with this letter are a revised Site Plan, Landscape Plan, and Subdivision Plan, showing the minimal design revision to account for 40’ setbacks, as determined by the Zoning Officer at the August 26, 2019 Zoning Board hearing. Also included is a letter from Boylan Code, stating in their opinion that the site plan changes are so minimal, and not substantial, that an additional County Planning Board Review is not required.

We look forward to the October 16th public hearing, and the continued review of the Site Plan, Subdivision, and Special Permit applications.

Sincerely,

Daniel Compitello
Project Developer
