To the Town of Farmington Zoning and Planning Boards

Attn: Mr. Ronald Brand, Director of Development for the Town of Farmington

RE: SEQR Delaware River Large Scale Solar Project Fox and Yellow Mills Rd

As a Farmington resident I strongly oppose the proposed Solar Project. Let's find a different location such as a Brown-Field or an abandon Quarry.

As I understand, the land in question is directly above a main water aquifer. Similar large-scale solar projects have resulted in ground water contamination from panel cleansers and broken panel components.

Please say NO TO Delaware River Solar

Sincerely

*George Kergert*
