

**TOWN OF FARMINGTON
PUBLIC NOTICE**

The Town of Farmington adopted a Waste Materials Policy on October 8, 2019. Water & Sewer, Highway and Parks Department operations create material wastes (non-hazardous) that are not useful for town operations but might be able to be used by nearby land owners or a local business.

Farmington property owners interested in obtaining dirt, gravel or wood wastes material when available should contact the Farmington Town Supervisor's Office. A list will be kept of residents interested in having waste material delivered to their location.

Letters of interest should be sent to Town of Farmington, 1000 County Road 8, Farmington NY 14425, Attn: Town Supervisor or an email subject "waste material interest" to pingalsbe@farmingtonny.org.
