

Geography Project

Country map

Each student will make a map of the country of their choice, other than the United States.

The map should be drawn on a standard size poster board and should include:

- The name of the country
- All major rivers
- Major mountain ranges
- Major deserts
- Any other interesting geographical features
- Pictures or examples of the country's exports and natural resources

The student may use a variety of materials on their map.

Paint, sand, clay, foil, and any variety of paper may be used.

A key should be included on the map to explain any symbols that are used (i.e. ^^ = mountain)

The project will be due Tuesday, November 2nd, and will count as one test grade.

It will be graded on the following criteria:

- Is it neat?
- Is all the information included?
- Is everything spelled correctly?
- Is it well-planned?
- Is it the student's own work?
