

Special Meeting: Water Tower Report from HDR

April 4, 2013

Present: Mayor James Snook, Alderman Staley Snook, Alderman Marshall Welch, Kelly Spiers and representatives from HDR.

HRD reported the status of the water tower situation, stating that it needs to be replaced with a new, taller tower (50ft taller) to increase water pressure. They also recommended the water lines be increased to 6" and that we add a 2<sup>nd</sup> connection to Plattsburg.

The cost breakdown is as follows:

\$700,000 for the new tower

\$300,000 for the new water lines

\$50,000-\$75,000 for the 2<sup>nd</sup> connection to Plattsburg.

The company also stated that it would take 1-1.5yrs for construction to begin due to planning and design.
