# **LEARNERS PERIOD OF TIME IN TRAINING SYSTEM**

## **MOP NUMBER 29**

(REVISED 15/10/2007)

### **Table of Contents**

1. Purpose	1
2. Applicable Documents	1
3. Definition	1
4. Policy	1
5. Responsibility	1

### **PURPOSE**

The training of new members to fly model aircraft is a time consuming process. On many occasions there are insufficient instructors to provide instruction to those present. Learners vary in age and ability; some adapt to the process very quickly whilst others find learning to fly very difficult. Some learners may never achieve solo status. If this is the case, the member must be told the reality of the situation and so as not to slow down the progression of other students may be taken off of the training schedule.

### **APPLICABLE DOCUMENTS**

Committee minute

### **DEFINITION**

### **POLICY**

1. All learner members may remain on the training system for a period of twelve months
2. At the expiration of the twelve month period the CFI will assess the ability of the learner.
3. If the CFI is of the opinion that the member will not achieve Bronze Wings status he/she shall discuss with the member the options available.
4. The member will be informed that he/she will not be given priority on training days.
5. Training of the member will continue during other times or when there are no other students.

### **RESPONSIBILITY**

It is the responsibility of the CFI to ensure that these procedures are adhered to.
