

# **BREAK** the **BARRIERS** of **ABILITY** versus **DISABILITY**

Those in our community with intellectual or multiple disabilities are often severely disadvantaged in comparison with the rest of society.

## **HELP** to **EMPOWER & EXPOSE**

People with a disability, parents, families, carers, advocates friends and service provider staff – help us seek real quality of life care for vulnerable people in our community. Give us your ideas. Tell us of your experiences – good and bad.

Empower people with a disability and their families to better understand the services they need. Expose questionable service policies and practices in Supported Accommodation.
