

Membership of Lifestyle in Supported Accommodation (LISA)Inc.

The front-line aim of LISA is to directly and indirectly assist families to get quality of life care for their family member/s. And, to question service provision for people with disabilities and their families, without fear, favour or funding. To "call it how we see it", as "funding and future business" often gag the true story.

It is disappointing that those in this world who "call it how they see it", are often intimidated by those with "Power over People". LISA is well aware that vulnerable people are frequently concerned to be seen associated with those who call it how they see it. LISA has, therefore, always sought to protect the identity of its supporters and those it helps.

Changing the culture of services for vulnerable people from a "hand-out" to a "rights-based" culture with meaningful, pro-active, customer service is a long hard road where we need a united, not fragmented front. We are therefore seeking to increase our supporters to broaden our ideas and information base, whilst maintaining the integrity and security of supporters.

LISA is a sensitive group, as those who associate with us come from all areas of the disability field. Parents, families, carers, friends and service provider staff are all vulnerable to intimidation and retribution for daring to be associated with free speech, critical thinking and alternative views.

We do not ask for a whole series of formal information, only that you provide us with whatever you feel comfortable to provide. Naturally, we need basic contact information, preferably Email, that we may send you information and seek your views on various aspects of service provision and human rights.

Membership is free, as we need your support, rather than your money.
