

About the District

Our Mission:

- To protect the public health and our environment.
- To provide for safe and cost-efficient collection of sewage waste.
- To provide for effective conveyance to the Treatment Plant.

We are pleased to present this Annual Report of the Cupertino Sanitary District (CuSD), recognizing **60 years** of service to over 23,000 customers within the communities of Cupertino, portions of Saratoga, Sunnyvale, Los Altos and unincorporated areas within Santa Clara County!

CuSD covers approximately 15 square miles, serving a population of over 50,000 people with more than 23,000 residential and business units. The District owns and manages over one million lineal feet of sewer mains, a half million lineal feet of sewer laterals, 17 pump stations, over 4,000 manholes and flushing inlets, and one equipment storage facility. CuSD conveys nearly 5 million gallons of wastewater daily from our customers for treatment at the San Jose/Santa Clara Regional Wastewater Facility.

CuSD's collection system, much of which is more than 50 years old, has been maintained proactively with regular cleaning and development of a Capital Improvement Program (CIP) aimed at improving efficiency as well as extending its useful service life.

Board of Directors

William A. Bosworth • Angela S. Chen
John M. Gatto • Patrick S. Kwok

District Staff

Richard K. Tanaka - District Manager-Engineer
Ivy To - District Administrator-Engineer
Mark Thomas & Company, Inc.

Stop the Clog! **DON'T** flush FOG down your toilet or sink...

- Cooking Oil, Butter, Gravy
- Melted Meat Fat
- Salad Dressing
- Solid Foods

Can it, cool it, scrape it, trash it!

Flush **ONLY** body waste and toilet paper!

What’s New at the District?

- Despite uncertainty with funding the cost required at the San Jose-Santa Clara Regional Wastewater Facility, estimated at \$1.4 billion over the next 10 years, the District maintains a reserve policy to better manage our cash flow.
- In July 2016, Chair Andrews resigned from the CuSD Board of Directors. His decision to retire and live in the High Sierras was his ultimate goal. We wish him well!
- District has implemented XP-SWMM, a computer hydraulic modeling system, to ensure that the District’s infrastructure will meet the future growth demand.

House Laterals

Lower Lateral
 The District maintains the Lower Lateral from the clean out at the property line to the main line.

Upper Lateral
 The property owner maintains the Upper Lateral.

- If your lateral needs to be replaced, you can apply for financial assistance. Ask us about it.
- Do you have a property line clean-out on your property? We can assist you in locating it.

Call us at (408) 253-7071

2016 Facts & Figures

Notable Accomplishments in 2015-2016:

- Completed four capital improvements projects.
- Implemented ARC-GIS, a computerized geographic information system.
- Completed I/I (inflow/infiltration) Study.
- Serviced and cleaned over 25% of our sewer mains, including aggressive program for CCTV inspection (closed circuit television camera) of our sewer mains.
- Coordinated major developments: Main Street, Rosebowl, Apple Campus, Saich Way, Biltmore, and many others.
- Received the Special District Leadership Foundation District Transparency Certificate of Excellence.

Operating Budget:

Capital Improvement Projects Completed in FY 2015-16

- Replaced sewer main and laterals on September Drive.
- Installed backup generator at Prospect Pump Station.
- Relocated sewer mains on Wolfe and Homestead Road.
- Rehabilitated sewer manholes and pump station wet-wells.
