Prodovite™

Prodovite™

My name is Jason Hubler. I have used a very extensive supplement regimen to support my intense weight lifting workouts over the past year of serious strength training. My previous personal best in squat weightlifting was 395 lbs.

I had hoped to achieve a new personal record of 405 lbs. To ensure my system was totally clean from any supplement influence prior to taking Prodovite™, I did a 6-week washout and stopped taking the 20 other supplements I had been using. I then took 1-ounce of Prodovite™ shortly before starting an intense Powerlifting workout session. I also added 1-ounce of Prodovite to my regular workout beverage and sipped on it between my sets of squats.

I ended my workout session by achieving an astounding lift of 515 lbs! (The following day I had no muscle pain). In the following weeks I have had continued increases in squat training exercises ranging from 545 lbs to 575 lbs.

I have been and continue to be truly amazed! I have NEVER experienced anything like Prodovite!

It is truly incredible!"
