

Becoming Agile

Overview	The goal of this training course is to facilitate the move of people from traditional project environments to an Agile project environment. It will provide the knowledge of important Agile concepts, agile behaviors, the agile environment and important practices.
Duration	1-day
Audience	Suitable for Project managers, other project leaders and stakeholders, who wish to participate in Agile Projects, or apply for Agile Project roles with little or no experience. Also suitable for PMP certified project managers who are looking to enhance their skills and gain PDU points toward their re-certification at the same time.
Content	Upon successful completion of the Becoming Agile workshop you will be able to: <ul style="list-style-type: none"> • Identify the major differences between PMBOK® and Agile project environments • Talk the Agile talk • Set up an Agile project environment • Identify important roles and responsibilities • Define the work as User Stories and be able to distribute that work across the project, a release and an iteration • Implement significant Agile tools and techniques that support the management/leadership of Agile projects
Approach	Face to face presentation with supporting practical exercises during the course.
Materials Included	Training manual including hands-on exercises
In Short...	Agile is becoming more and more popular, attend this course now to ensure you are up to speed with the latest techniques in project management!

“Wonderful wealth of knowledge and experience, very approachable and provide clear and willing responses to questions.” - Participant feedback in Melbourne

“Angie Chellas is a really helpful and clear presenter. She made the information interesting to learn. It showed that she is passionate about the topic, as evident in her enthusiasm.” - Participant feedback in Brisbane
