SIG Page on the
MASA website.

South Hummocks Model Aero Club

Well it has been quite some time since I rambled in the newsletter, and at last I actually have something to ramble about once again.

Since I last dribbled in the newsletter the club has continued to tick along nicely. The usual twice a month gatherings have taken place, as have the long weekends of camping, fun and frivolity. The October long weekend saw us once again host the 'Ringmaster fly-a-thon' and although the weather was not the kindest to us, a number of our members, plus two visiting members took to the.... well limited amount of sky to participate in the world record attempt. For those of you who remember last years effort we had six pilots at our event tallying twenty-six flights. This year even though the

weather was rather unfavourable, we still had five pilots competing and still managed to log twenty-five flights! Well done to Ned Kelly (SHMAC), Rod South (SHMAC), Mick 'winged warrior' Laundry (SHMAC), Jeff Prosser (AAC) and Mal Dyer (HMAC), I'm sure the 'brotherhood of the ring' appreciates your efforts. We do have the worldwide results in and much like our own little club, pilot numbers were down this year globally from 655 pilots to only 554. However not all was lost! Last year a HUGE 5680 flights were logged, making this year a MASSIVE 6127 flights! Well done to all those right around our big round (or flat depending on your theories) world.

With not a lot happening for so long I thought my fingers would fall off from typing this month, given that we had the ringmaster event AND the Dawn Patrol to talk about. Alas my fingers are safe. The Dawn Patrol weekend was almost all but blown away unfortunately. The weekend did see many come to camp. Members from PLMAC and SCMAC travelled from all around the state for our weekend, from Port Lincoln, Ceduna and as far south as Cape Jervis. There were a number of flights on Saturday, predominantly from visiting members, although 'breezy' the flying conditions weren't too bad and I think all who flew, and even those who didn't, all enjoyed themselves. A few extra 'day trippers' made their way to the field on Sunday for the official Dawn Patrol event. I think it was those who came for the day who brought the extra strong winds! Other than Anthony Peters who flew a 'not quite military' Sbach, there was no flying to be had by anyone. Ned gave it a red-hot crack, but the poor old PT19 had other ideas and decided to keep itself safe by not starting for him. Nevertheless, we shall not be put off, the Dawn Patrol will be back again next year, hopefully being a big event again, and again hopefully the gods shall bestow us with a good weather weekend.

Don't forget the club Christmas dinner coming up on November 30, with a special general meeting to also be held on the day. More to come via email from Ned I'm sure.

Until next time, clear skies and happy flying to all, Brett

Australian Precision Aerobatics

www.f3a.com.au

South Australian Precision Aerobatics **2019 in Review**

What a fantastic year we have enjoyed in South Australia this year. The Season got off to a windy start in February at Monarto. In March, Michael Smith won Advanced class as the Australian Master Competition in Coolum Queensland

April saw a great competition at Constellation and then we lost 2 competitions in May at Skyhawks and June at Noarlunga due to bad weather. Believe me, it has to be bad for this dedicated lot to abandon an opportunity. In between we did get together for a practice and training day with John and Paul giving valuable assistance.

The band of flyers all decided that we wanted to make up for the lost competitions as well as fly the scheduled events so in a period of around 10 weeks, we crammed in 5 competitions. These were at Noarlunga, Barossa, Monarto, Skyhawks and Monarto.

During this period Michael Smith promoted to Expert, Sean Readett promoted to Expert and Peter Readett earned 2 promotion points and Dean Smith 1 point each in Advanced

In October Peter and Sean Readett went off to the F3A Nationals in Albury. Sean blitzed the field to win Expert and Peter missed out by the smallest of margins to finish second in Advanced. Both registered Promotion points in their class.

Peters' promotion point sees him move up into Expert.

The State Championships which included 6 rounds were held in terribly windy conditions at Monarto on Saturday 19th October. John Tonks won F3A which included two rounds of the "f" schedule. He was just sublime in the wind. It is always a pleasure to sit back and admire his skill. He is also a great coach and mentor to all of us average pilots.

Paul Whiteman put on a brave face to crawl out of his sick bed to compete. Sean Readett won Expert followed closely by Michael Smith and Peter Ukhoff and Dean Smith won Advanced.

We missed many regulars including Jeff Boyd, David and Steve Marriner and Jeremy Reynolds who all had other commitments.

As the competition was done in a day, Sunday was used to learn and practice the new schedules for the 2020/21 seasons. They initially appeared quite hard with a significant increase in the “k” factors but after a few flights we all started to come to grips with them (after a lot of laughter)

We all felt it important to make an early start on the new schedules as the 2020 F3A Australian Masters Competition is being held in March at the Barossa club. Anticipation is somewhere between 40 and 60 pilots plus 4-5 Internationals. This will be held over 3 or 4 days and promises to be the biggest F3A event held in SA for many years.

Peter is getting to grips with the Notaumatics scoring system and we are utilizing more of the functions to make the scoring and results gathering much easier.

So in closing, what a year for our close knit group of about 12 flyers. Everyone always helping and encouraging each other, 2 National Titles and a 2nd place and 3 pilots promoted up to Expert

We would also really like to thank the many clubs and all their club members who give up a days’ flying at their fields to give us the opportunity to fly our competitions at all

Learning the 2020/21 schedule

these great fields. They are always immaculately presented and often a BBQ is put on as well. From all us F3A pilots, a very big and sincere thank you.

The time is ripe for some new pilots. We really encourage and need some new blood. Sportsman is a really good start point, any sports aircraft can be used, it doesn't need to be anything special. You don't need Gold Wings. I'm sure you know someone at your club that is flying, have a chat or contact Peter Readett and we can get you practising for the first competition in February 2020. Any of us will gladly assist you understand and practice the manoeuvres, it will really make you a better all-round pilot and appreciate just what this International Category of F3A is.

Peter Readett

SOUTH COAST MODEL AERO CLUB

SCMAC our first working bee at our new location at 803 Finnis Clayton Road.

The day had arrived at last, a squadron of lawn mowers 20 enthusiastic bodies and John with his tractor plus good weather. Much was achieved in 4 hrs of hard graft, gutter cleaning, sweeping, cleaning, stock pen removal and of course mowing. This was followed by a sausage sizzle and much discussion as to the future to come at this site. We even got a wind sock erected on the vineyard poles.

HOLDFAST MODEL AERO CLUB

Kris Duda with his father Waldek, as caller, entered his first ever pylon race on Sunday October 10th and finished 2nd in Point Ten Standard Class. Hopefully he enjoyed it enough to return in 2020.

As can be seen in the photo, Kris didn't fly a pylon racer, so if you'd like to try pylon racing, no need to obtain a new aircraft, bring a model along that you think may be suitable and we'll find a class for you to compete in. Then if you'd like to continue, there are a number of model and class choices available. If you're interested and have questions, contact the HMAc Secretary via our website holdfastmac.asn.au and you'll be directed to someone who can help.

Point Ten pylon racing and club competitions will return to HMAc on Sunday February 2nd, 2020.

Web Site nmas.info.

check us out on

Can't believe it's been nearly 5 months since my last Noarlunga article. Apologies to all. My F3A competitions have kept me away from the club a lot in these past months.

- The Indoor crew have had some great fun at Seaford. The last month was a bit light on but we've enjoyed some great nights especially when we get the double court. Some new models have been seen the hands of Peter & Neil and I think there's a few new ones on the building boards. We've had some indoor control line in the hands of 4 year old Ryan, a flying dolphin, couple small quads, multi engine and visitors from other clubs.

One thing that is always constant is the laughs.

- Hasn't been too much Night time flying as it's been too cold but it's time again to fire up the LED machines on a Saturday Night.

The Fun Fly BBQs will be on again now daylight savings has started on the 1st Saturday of each month, another opportunity to have a late afternoon or night fly

- Several members travelled up for the Hummocks Long Weekend festivities but endured pretty windy conditions which kept flying time down. The annual Ringmaster CL event was conducted

- Another band of flyers also went south to the beautiful Lake Leake near Mt Gambier for a float flying weekend. Conditions varied considerably

Lake Leake sunsett October 2019

On the awards front, Joshua Caleb is our latest Silver Wings graduate, first graduate since April this year. Having flown with Josh and seen him around the club, he will be another welcome pilot to share the air with and another recruit we can start to work up to Gold Wings. I don't think we have had a new Gold Wings badged pilot for over 12 months. So the challenge is out there Brett R and Paul W who look like the next likely challengers, "Lets get them Golds"

Josh receiving his Silver Wings from CFI Troy Davis.

Sean Readett has filled his trophy cabinet proudly representing the Noarlunga Club. At the recent Australian Precision Aerobatics National Championships in Albury, Sean smashed the field in the Expert class over 6 rounds to win the Championship title and then followed it up again two weeks later at Monarto to win the Expert class at the SA Precision Aerobatics Championships. The senior member of the clan Peter also competed at the Nationals and just got pipped for first place in Advance, missing by 13 points in 5000 but earned his 3rd promotion point so earned an upgrade to Expert class where he can again do battle with the child prodigy.

Peter and Sean Readett, winners in Albury.

Military and Civil Scale Day is on again on the 24th of November so dust off all those Scale Models and come join us for what is always a great fun event.

BLUE LAKE AEROMODELLERS FLOAT PLANE WEEKEND - LAKE LEAKE

Blue Lake Aeromodellers (BLAM) held their second float plane at Lake Leake over the weekend 13th and 14th of October. Although not as well attended as the event in May, those who did venture enjoyed a weekend of flying and fun. Visitors included members from Naracoorte, Ceduna, Noarlunga and AMA. The hospitality of the BLAM members as usual was superb. All visitors were made welcome and of course, fed well. Thank you to all who made the event a success, this includes the wives and friends of members who worked behind the scenes to ensure we all had a good time. We will be back next year.

For those who have not tried, float plane flying is an entirely different and exciting way of flying, especially if you have an out landing. It definitely hones one landing and taking off skills. Lake Leake is situated between Kalangadoo and Mount Gambier, a short trek from Adelaide. I understand the next event is in May 2020. Get yourself a float plane and come and support the BLAM club.

UGLY STICK Fun Fly day

17th November 2019

This is a relaxed flying day for any variant the famous **Ugly Stick** of any size and power type, scratch or ARF. All MASA members are welcome and a BBQ lunch will be available. Flying to commence at 9am

Big Stick, Liddle Stick, Ugly Stick, Mini Stick, Super Stick, Ultra Stick, Giant Stick, Electric Stick.

How about a Biplane Stick?

Position of MASA Secretary

At the 2018 AGM the current secretary expressed a desire to stand down from the position of secretary after five years of service to MASA. Unfortunately, no nominations were received and the secretary agreed to caretake the position until a suitable replacement is found. The flexibility for this arrangement has now reached its elastic limit and the current incumbent **will** stand down at the May 2020 Annual General Meeting.

Model Aero Sport SA is seeking to recruit a suitable applicant to fill the position of Secretary and seeks expressions of interest from the committee and members of MASA.

A job description has been prepared and is available on request.

Reality Check

MASA has experienced consistent leadership for a long period of time and members should not become complacent in the fact that any long serving members will continue indefinitely.

At the next AGM, the positions of President and Treasurer will also be up for re-election. If the existing incumbents elect not to re-nominate and no nominations are forthcoming, the continuity of the MASA committee could be in a dire state and being unable to function, control of Aeromodelling in SA may well be relegated back to the National body. State guidance will not be available, persons making decisions may have no knowledge of the South Australia environment.

Utilisation of our younger membership, encouraging them to step up and transition into the future leadership of MASA, would be a logical and realistic investment in the future survival of Aeromodelling in SA. At present this can be done, and advantage taken of the existing team knowledge base. This may not be available if we wait too long. If you value the future of your organisation, MASA, now is the time to ensure its future.

Expressions of Interest in the position are welcomed

and requests for the Job & Person Description should be forwarded to:

MINUTES OF THE MANAGEMENT COMMITTEE OF MASA INC

Held on 6th November 2019 at The Restless Dance Theatre Meeting Room

Meeting opened by the Vice President at 19.30Hrs

PRESENT: President, Vice President, Secretary, Treasurer, Adelaide Aero Modellers [AAC], Adelaide Model Aero Sport [AMA], Adelaide FPV Racing [AFPVR], Barossa [BVMAC], Concorde, Constellation [CMFC], Helicopter [SARCH], Holdfast [HMAC], Goolwa Indoor Model Flyers Club [GIMFC], Indoor Flyers [SAIF], Moonta [MMAC], ~~Nearlunga [NMAS], Northern Soaring League [NSL],~~ Old Timer [OT], Onkaparinga Radio Aero Modellers [ORAM, Newsletter Editor, Pylon [SAMPRA], Scale Society [SASOSA], Skyhawks [SA], South Coast [SCMAS], South Hummocks [SHMAC], Southern Soaring League [SSL], Strathalbyn [SMAC]

VISITORS: Nil. **APOLOGIES:** President. NL Editor, SAIF, SARCH, Skyhawks.

Minutes of previous meeting It was moved by the SHMAC seconded by SSL that the minutes of the previous meeting be accepted. Carried.

BUSINESS ARISING FROM PREVIOUS MINUTES

Finniss Property South. SCMAC have signed up to lease 20 acres of the site from MASA and have spent several weeks preparing the new field and vacating their assets from the old venue. The site is now functional as a model flying field.

MAAA have provided details to the club on of the water rights arrangement in the purchase and the club can now commence negotiations. J. Modistach as property manager requested permission of the meeting to contact the Creeks Pipeline authority to commence negotiations to re activate the water supply onto the block. A motion to this effect was moved by SMAC and seconded by SCMAC. Motion carried. John will also commence the cutting of fire breaks around the property in compliance with council regulations.

Presidents Conference. The meeting is all set for the 16th at Restless Dance Theatre 195 Gilles St Adelaide commencing at 9.00am. Due to difficulties in securing accommodation in the usual city hotel, country representatives are being accommodated Scotty's Motel located at Medindie. The agenda items will be sent out to the club secretaries.

Instructors course. The SFI advises that the next refresher course date has been deferred and is now rescheduled for January 11th at the Holdfast Model Aero club venue. Current Instructors are reminded that re certification is required 31st July 2020 after which the rating will lapse.

MASA Working party. The MASA promotional working group has completed the ground work to put on the static display at the RAAF Air show. MASA clubs have provided their banner flags and the event team will have the set up completed by Thursday.

The volunteers have rallied to operate the display stand on a shift basis and the static aircraft and flying program looks set for a great Air Show. Fingers crossed the weather is favourable.

BUSINESS ARISING from Correspondence

BLAM Land Application. The Vice President has reviewed the application information provided and recommended that the MASA committee endorsed the application for MAAA to consider through their land application process. A motion was moved by AMA and seconded by Concorde that the application be approved and forwarded on to MAAA. Motion carried.

MAAA update on Ancillary sites. MAAA advise that CASA has identified that the original dates they were striving for were unrealistic and the registration of our ancillary sites will not come into force until around May 2020.

Clarification of Working with Children checks(WWCC). Following the receipt of further clarification and legal determination of specific points from the MASA Lawyers, the President prepared an MASA Administrative Procedure (MAP7). This document outlines the requirements of the Child Safety Act and identifies the requirements that clubs must follow and who in the club requires a WWC check and lastly how to apply for a check through the screening unit.

The MAP 7 as presented was read out to the committee, an amendment was then put by SSL and seconded by MMAC that the following wording be amended from:

It is recommended the following members also obtain a Working with Children Check

- Any member who communicates with the child away from club premises and that person is not a close relative of the child

Be amended to:

It is recommended the following members also obtain a Working with Children Check

- Any member who communicates with the child on behalf of the club away from club premises and that person is not a close relative of the child.

The amendment was put to the vote and carried.

The motion now amended was moved by the Executive and seconded by SHMAC and was carried unanimously.

CATEGORY REPORTS

AAC held a practice session at the club grounds of Rat Racing, Combat and Speed Racing in readiness for their participation at the RAAF Edinburgh Air Show.

GENERAL BUSINESS

- **Heavy Model Inspector.** A. Merryweather has been successful in achieving endorsement as a HMI by J. Modistach and B.Kent. The paperwork has since been finalised and the secretary will forward on the details to the MAAA.
- **MASA Calendar.** Reminder once again. It is time to supply event dates for the 2020 MASA Calendar. Clubs wishing to secure dates are requested to contact Bill Kent wmkent48@gmail.com
- **Working with Children Checks.** The secretary will circulate out to all club secretaries a copy of MASA Administrative Procedure (MAP7) and the supporting legal response. Clubs can also view the MAP on the MASA website.
- **Sports Recognition.** HMCA on pursuing through their contacts and lines of enquiry have indicated that nothing is happening.
- **MASA Xmas Shutdown.** The last committee meeting for the year will be on December 4th and as approved, light refreshment provided. Meetings will resume on February 5th 2020.
- **Secretary's Position.** A letter of intent will be published in the newsletter and MASA will be providing a Job description and seeking expressions of interest from committee and members.
- **Concorde.** The recent open day and fun fly yielded two new members and one previous member re-joining after a period of absence.
- **Col Reedman day.** SCOSA advised that this event has been rescheduled to December 1st at the Constellation field.

- **Dawn Patrol.** The SHMAC held their annual Dawn Patrol which was well attended with WW1 and WW2 models. Typical of the Hummocks site the wind did not disappoint Some flying was done but the club hope to make the event bigger and better for the next one.
- **Training Team Equipment.** The SFI requested funding for carry cases for the training team Transmitter Equipment. A motion was moved by the SFI and seconded by BVMAC that suitable camera type transportation cases be sourced and purchased. Motion carried.
- **Heli Fest.** The AMA venue recently hosted the event which turned out to be a roaring success attracting some 40 to 50 pilots with one from Thailand. The organisers Hamish Scott and Brett Matheson are to be commended for their efforts. The subsequent AMA fun fly ended up being a blow-out but not to be outdone, some hopefuls came out for the come and try event and the club was rewarded with two new members out of it.
- **Safety Matters.**

No safety incidents or accidents to report for this month.

*“Safety is not about big brother or the fun police,
Simply working towards a positive safety culture”.*

There being no further business

**Meeting Closed 21.10 Hrs
Next Meeting Wednesday 4th December 2019
at The Restless Dance Theatre 195 Gilles Street Adelaide**

“ LOVE THIS BIRD!!!

...you just outdid yourself again! ”
