Completion of Form I-9

We are more than happy to complete the I-9 form for any employee in need of this service. It is important to mention that this service will be performed as an "authorized agent" and not as a notary, and in order for us to complete the form, the employee will have to submit a written request/approval from his/her sponsoring company/employer requesting/authorizing us to serve as their authorized agent. Without this written document, we will not be able to complete the form. If required by the hiring authority, we will be happy to provide an attestation of the ID used during this process at no extra cost.
