

South Perinton Cemetery

Headstone/Burials Map

Authors: Kathy Briggs and Bonnie Waters
3/6/2023

Rev. 9/18/2024

REFERENCE DETAILS

- Mapping of graves/headstones is arranged by Rows running north to south.
- The cemetery has 3 Sections: Section A (Rows 1 - 18), Section B (Rows 19 - 46) and Section C (Rows 47 - 53 as of 2024).
- Row 1 is located at the east of the cemetery at the church's east parking lot (parallel to Pannell Road).
- Empty spaces (approximate footage) between headstones have been marked on this document. Many of these spaces may contain burials that are unmarked or are family plot burials which can take up to 3 rows in a square section in the respective rows (the size of a family plot seems to vary from 4-8 graves). Typically, there will be a big family monument in the middle row with the individual family members buried in the rows to the east and the west of the monument, each with their own smaller headstone. There are some exceptions where the family plot runs in a linear single row.
- Please note that a few rows have a very long space between headstones or are short rows due to the above mentioned plot arrangements, but are given their own row number to be consistent and make it easier to find graves.
