BSG NEWS

THE BUSINESS SERVICES GROUP

OCTOBER 2016

"As a partner in the firm and chair of the business services and intellectual property and technology groups, I take great pride in announcing the opening of our Pennsylvania office. Philadelphia is not only a world class cultural and historic destination, but also is a thriving and a vibrant business locale, possessing the same entrepreneurial spirit which has been part of our firm's culture since its inception. I am very excited about our new Philadelphia office and I look forward to continuing to serve the needs of our clients throughout Eastern Pennsylvania in the years ahead."

Timothy J. Szuhaj

Becker has redefined the client-attorney relationship through its Business Services Group. The Group takes a project management approach to providing bundled legal services to small and medium-sized businesses that know they need legal support, but lack the revenue and volume of legal issues to justify hiring their own in-house general counsel. Our BSG attorneys will be continuing that tradition with the opening of the firm's office in Philadelphia. Located at 1515 Market Street, just steps away from the iconic Philadelphia City Hall in Center City, our firm's new Philadelphia office will allow our litigators to continue to serve the needs of our current clients in Pennsylvania as well as give us a platform to develop new relationships with the businesses and companies that make their home in the dynamic Philadelphia metropolitan area. Although we now have added a new address, our consulting model will stay the same and continue as the core and foundation of our Pennsylvania practice.
