

Colorado River Recreational Users Survey

Be a part of shaping the future of recreation on the Colorado River through our community!

The Middle Colorado Watershed Council is polling residents and visitors about current and future recreational use on the Colorado River between Glenwood Springs and De Beque.

Your input will be used in the development of a master plan for future planning projects such as river maps and on-the-ground improvements such as access points and bankside amenities.

Please use the QR Code below to go to and take the online survey.
