

Garfield County Public Health is closely following direction from Governor Polis outlined in the April 20th, 2020 press conference as we move from “Stay At Home” to “Safer At Home”. Local Public Health Agencies are being tasked with modifying the orders to best keep their populations safe and healthy, while also allowing economic sectors to reopen.

While the bulk of the Roadmap to Reopening centers around businesses we want to be clear for our public that gathering restrictions are a continuing vital part of slowing the spread of COVID-19 and need to be kept for the foreseeable future. The “Safer At Home” orders will still have in place a 10 person or fewer gathering restriction.

Because we have worked closely with our local businesses during the “Stay at Home” order, many are already aligned with the first phase of opening and will not see a significant change. For others, we will work to support them as they reopen more aspects of their business. Garfield County has worked with hundreds of local businesses, including the following activities:

- Worked with local restaurants around changes to take out and delivery
- Worked with construction companies around continuing projects safely
- Worked with small businesses around curbside pickup and delivery options
- Worked with childcare facilities around opening/closing parameters
- Worked to develop guidelines for all auto dealers
- Worked to develop guidelines for all golf courses

The “Safer At Home” orders will begin on April 27th, 2020. We want to give our local businesses and agencies time to review the Roadmap Criteria outlined below and complete a plan for their agency using the Garfield County Business Social Distancing Plan guidance. **Businesses and agencies in Garfield County should determine if they are high, medium, or low risk, complete the “Garfield County Business Social Distancing Plan”, and submit the form online at: www.garfield-county.com. To allow adequate preparation time, we will begin Phase I implementation on May 4th, 2020.** This will align Garfield County with state efforts. The form is included as part of this packet and can be filled in manually and submitted via email to: consumerprotection@garfield-county.com, or fax 970-625-4804, or via mail: 194 W 14th St, Bldg A, Rifle, CO 81650.

For questions please call: 970-625-5200, ext 8120

GUIDELINES FOR ALL PHASES AND SECTORS (AS APPLICABLE):

- Refer to Occupational Safety and Health Administration [Guidance on Preparing Workplaces for COVID-19](#)
- Perform routine environmental cleaning and disinfection
 - [Building Disinfection Guidance](#)
- Monitor workforce for compatible symptoms
- Non-COVID symptomatic employees should wear a cloth face cover
- Implement or maintain return to work policies

Determining Exposure Risk

High Exposure Risk

Those with high potential for exposure to known, or suspected sources of, COVID-19. Examples in this category include healthcare and first responder agencies. If you would like further guidance for this category please contact public health.

Medium Exposure Risk

Medium exposure risk jobs include those that require frequent and/or close contact (i.e., within 6 feet of) with the general public and/or other coworkers in high-density work environments. Examples include schools, high-population-density work environments, some high-volume retail settings.

Lower Exposure Risk (Caution)

Lower exposure risk jobs are those that do not require contact with people known to be, or suspected of being, infected with SARS-CoV-2 nor frequent close contact with (i.e., within 6 feet of) the general public. Workers in this category have minimal occupational contact with the public and other coworkers. Examples include landscaping, pet grooming, etc.

What to expect April 27th - May 4th

April 27th

- Retail businesses can open for curbside pickup and delivery if they choose to
- In-person real estate showings can begin, no open houses
- Medical, dental, and veterinary offices can reopen under strict social distancing precautions for elective procedures

May 4th

- Under strict precautions, retail businesses can open to the public beyond curbside pickup and delivery
- Personal services (salons, dog grooming, personal training, tattoo parlors) can reopen under strict social distancing precautions
- Large workplaces at 50% of the in-person workforce, with symptoms and temperature checks as employees enter

Garfield County Roadmap Criteria

Indicators that must be met to move into the Stabilization Phase

- 1. A sustained decrease in cases for at least 14 days**
 - a. Measured by new cases per day, self-reports (where applicable), and positivity rates
 - b. Proxy measurement - new cases among healthcare workers
 - c. Proxy measurement - outbreaks and/or new cases within skilled nursing facilities
 - d. Proxy measurement - hospital admission for COVID-19

- 2. Hospitals are safely able to treat patients without resorting to crisis standards of care**
 - a. Hospital census - regional census may be helpful
 - b. Access to regional alternative care center or regional plans are in place
 - c. Hospitalizations are stable or decreasing
 - d. Supply chain for PPE and medications must be available

- 3. Testing can be performed for all people with symptoms consistent with COVID-19 infection**
 - a. Working towards testing capacity that is routinely accessible to every person who is symptomatic within 24 hours and results can be returned within 12-24 hours of specimen collection. (Rural areas may require 24-48 hours for results.)

- 4. Active monitoring can be accomplished for all COVID-19 cases and their contacts**
 - a. Isolation orders can be delivered within 6 hours of case report
 - b. Active monitoring and isolation must be in place
 - c. Capacity improved and maintained at state and local level with roles delineated
 - d. Enforcement capacity and process is clear in every jurisdiction

- 5. Clear protocol in place that requires social distancing and assists with case identification**
 - a. Older adults (age 65 and older) and individuals with underlying medical conditions that are at increased risk of serious COVID-19 are encouraged not to attend (including employees) or to tele-work where possible.
 - b. Employees must be screened for COVID-19 symptoms each day. Anyone symptomatic will be excluded from work for at least 10 days, will be tested within 48 hours, and will have face coverings provided for all household members.
 - c. Social distancing measures must be employed to ensure that employees and the public can easily maintain a minimum of 6 foot distance.
 - d. Social distancing protocol is provided to all employees and available to any customer
 - e. Enforcement capacity and process is clear in every jurisdiction

Getting to the Recovery Phase will require that vaccine is widely available

Approach for the Stabilization Phase

 Actions	Phase I: Meet the Roadmap Criteria 5/4/2020 (4 weeks)	Phase II: No significant increase in cases. Roadmap Criteria met & maintained (4 weeks)	Phase III: No significant increase in cases. Roadmap Criteria met & maintained (4 weeks)
Hand Hygiene	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Cough/sneeze etiquette	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Minimum of 6 feet distance between individuals	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
