Where did you first hear about Slides2disk

--

	Enter Requirements
Do you want them scanned at the recommended <b>2000 dpi</b> or up to 4000 dpi (please segregate slides if a mixture is required)	
Do you want the slides stored on a DVD with a slide show <b>Yes / No</b>	
If you do not want a slide show do you want them stored on <b>CD</b> or <b>DVD</b>	
Which file format do you want used <b>jpeg</b> or <b>tiff</b> jpeg will be used unless otherwise stated	

If you do not want a slide show please go to **section B**

### Section A

If you have chosen a slide show, what do you want as the main title of the menu,  
this will also be printed on the front of the DVD case

e.g. "**Our Family Memories**" , "**Michael,s Slide Show**" etc

it must not be more than 23 characters long

--

On our "slides to DVD" page, two sample menus are shown.

Do you want the "Pink" (up to three separate slide shows) or, the "Blue" (up to six separate slide shows)

Please circle the one you would like:

**Pink / Blue**

How many separate slide shows do you want on one DVD.

We suggest up to three but you can have up to six on the main menu

**Please let us know the following**

Which images are to be put in each slide show, and in what order, we suggest you number each slide in pencil on the white surround, if the sequence is important

Please let us know if there are any images that must not be restored, e.g. they are meant to be a sepia colour

---
