## Hi everyone!

Summer is almost over and, well, I don't want to talk about it, so let's think about something else. I just recently received this from a friend of mine via email and wanted to share it with all of you. It is political, but we believe in the message that it conveys, that the idea of America is a good one. A place where all "fit" no matter race, religion, etc. It is an idea that too many of us forget was the original plan for America, and we think it is a good reminder for all about what being an American truly is. We trust that one day this can be said about the world, not just a portion of it.

Here is the Australian article sent to me via email:

Written by an Australian Dentist....and too good to delete....

You probably missed it in the rush of news last week, but there was actually a report called "To Kill an American" that someone in Pakistan had published in a newspaper an offer of a reward to anyone who killed an American, any American.

So an Australian dentist wrote an editorial the following day to let everyone know what an American is. So they would know when they found one. (Good one, mate!!!!)

"An American is English, or French, or Italian, Irish, German, Spanish, Polish, Russian or Greek. An American may also be Canadian, Mexican, African, Indian, Chinese, Japanese, Korean, Australian, Iranian, Asian, or Arab, or Pakistani or Afghan.

An American may also be a Comanche, Cherokee, Osage, Blackfoot, Navaho, Apache, Seminole or one of the many other tribes known as native Americans.

An American is Christian, or he could be Jewish, or Buddhist, or Muslim.

In fact, there are more Muslims in America than in Afghanistan. The only difference is that in America they are free to worship as each of them chooses.

An American is also free to believe in no religion. For that he will answer only to God, not to the government, or to armed thugs claiming to speak for the government and for God.

An American lives in the most prosperous land in the history of the world.

The root of that prosperity can be found in the Declaration of Independence, which recognizes the God given right of each person to the pursuit of happiness.

An American is generous. Americans have helped out just about every other nation in the world in their time of need, never asking a thing in return.

When Afghanistan was over-run by the Soviet army 20 years ago, Americans came with arms and supplies to enable the people to win back their country!

As of the morning of September 11, Americans had given more than any other nation to the poor in Afghanistan. Americans welcome the best of everything...the best products, the best books, the best music, the best food, the best services. But they also welcome the least.

The national symbol of America, The Statue of Liberty, welcomes your tired and your poor, the wretched refuse of your teeming shores, the homeless, tempest tossed. These in fact are the people who built America, people from all different lands! Some of them were working in the Twin Towers the morning of September 11, 2001 earning a better life for their families. It's been told that the World Trade Center victims were from at least 30 different countries, cultures, and first languages.

So you can try to kill an American, if you must. But, in doing so, you would just be killing yourself. Because Americans are not a particular people from a particular place. They are the embodiment of the human spirit of freedom. Everyone who holds to that spirit, everywhere, is an American."

It speaks volumes and I really don't think I need to add anything except perhaps that what we might need, for all of those that need to have a label, is a different label for everyone who holds to the human spirit of freedom. You see Americans are just a group of people who didn't belong elsewhere and couldn't "fit" in. If we all work together maybe we can create space where all can and will "fit". Thanks for reading!

Blessings,

Joan and Merri

# Protection Stones

We have had many people asking for protection stones recently. I personally feel that this comes from the feelings of insecurity that many are going through today because of the constant media coverage, etc. of terrorist acts, etc. This frightens people and then when we are focused on fear we tend to see all of the other things we feel we must be frightened of. Stones are great protectors for many different reasons and to carry a stone for peace of mind is certainly a wonderful way to keep those fears from taking over your precious time. Stones have been used since ancient times as amulets for healing and protection and below is a list for all of you that would like to feel a little extra security and it is a guideline for what stone suits your needs. When I have written “overall” protection this means that it can be used for the physical, mental, emotional, subtle, etc. but one must still feel that the stone’s vibration will be in harmony with the one carrying the stone. It is all about whether the stone will be your stone or not and this can only be chosen by you. This is a guideline for your intuition and should be treated as such. If the stone does not feel “right” to you then chances are it will not work well for you. If you are choosing it for someone else, you can still use your intuition for what that individual needs. Read the attributes and then “feel” for the perfect choice. These are in alphabetical order and the descriptions all pertain to what they guard against or are a protection for.

**Agate (Fire Agate)** - against ill-wishing, builds a shield around the body and returns the harm back to it’s source so that the source understands the harm it is doing.

**Amber** - powerful overall protector, absorbs negative energies and transmutes them into the positive

**Amethyst** - overall protective stone esp. for spiritual protection because of it’s high spiritual vibration

**Angelite** - for the physical body primarily

**Bloodstone** - helps one avoid dangerous situations by strategic withdrawal and flexibility

**Boji Stones** - overall protective stone

**Carnelian** - protects against envy, rage, and resentment, yours and other people’s

**Cat’s Eye** - (Form of Chrysoberyl) protects the aura from negative energies

**Chiastolite** - wards against ill-wishing and curses

**Jade** - protects from physical harm, brings harmony

**Jaspers** - provides protection by grounding one’s energies and provides safety in travel, both physical and astral

**Jet** - provides protection against violence and illness and protects during spiritual journeying

**Kunzite** - Dispels negativity from individuals and the environment

**Labradorite** - forms a barrier to negative energies shed through therapy, deflects unwanted energies from the aura and prevents energy leakage.

**Lasar Quartz** - overall protection for body and aura

**Malachite** - absorbs negative energies and pollutants easily, guards against radiation, people who live near a nuclear or natural radiation source should have malachite in their home.

**Onyx** - fortifies our self-confidence so that we are protected against those who tend to easily influence us or try to lead us, is probably the best stone for protecting children, being careful to avoid letting very young children put it in their mouths

**Opal** - protects against thought of suicide as it strengthens the will to live

**Prehnite** - seals the auric field in a protective shield of divine energy

**Pyrite** - protects all the subtle and physical bodies deflecting harm and danger

**Smokey Quartz** - overall protection, assists elimination and detoxification on all levels, brings in positive energies to fill the voids

**Sugilite** - protection for the soul from shock, trauma, and disappointment, protects sensitive people and light workers from becoming mired or despondent having to work in the physical plane at such low vibrations

**Tiger Eye** - carried traditionally by shaman, etc. as a talisman against ill-wishing, curses, and the “evil eye”

**Tourmaline** - forms a protective shield, protection during rituals is very strong

———**Black Tourmaline** - overall protection, protects against cell-phones, electromagnetic smog, radiation, psychic attack, spells, ill-wishing, and negative energies of all kinds. Defends against debilitating dis-eases. WHEN IN DOUBT ALWAYS CHOOSE A BLACK TOURMALINE FOR PROTECTION!

**Tourmalated Quartz** - excellent for neutralizing psychic or actual attack, replenishes chakras after attacks, and keeps negativity from returning

**Turquoise** - believed to change color when there is danger, especially of infidelity, guards against sadness and brings great joy

The list here is not all inclusive. It is compiled from traditional and modern information about protection magic lore with crystals and stones. We trust this list will help you choose the best crystal for your protection. If you have any other questions please never hesitate to ask us. Namaste

## *The Essentials of Oregano Oil:*

- Oregano comes from the mint family and it originates from Turkey, France and Utah. It is steam distilled, as most oils are, from the stems and flowers of the plant.
- This herb has been used to treat and aid against many dis-eases such as arthritis/rheumatism, respiratory infectious dis-ease, infections/tuberculosis, and digestive problems. The great Benedictine herbalist and healer, Hildegard von Bingen, used oregano medicinally in the years 1098-1179, and it is still used abundantly today.
- Treatments and aids include strengthening all vital centers as well as being anti-fungal, anti-microbial, anti-parasitic, and anti-inflammatory.
- Fragrant influences include creating a feeling of security, could be why so many of us love Italian food?! Yes, oregano is used abundantly as an herb in many foods, but most well known in sauces, etc. in Italian cooking. And while you are enjoying that pasta with the great sauce, remember that oregano also helps to balance metabolism, so indulge a little!
- Oregano is used in rain-drop therapy and should be used with caution as it is a strong oil that can "burn" (cause extreme heat feeling on the skin) as well as cause nasal passage irritation if inhaled strongly from the pure oil. Use with a carrier oil to prevent this.

\*\*\*When applying or using any oil be sure and engage positive thoughts or prayer with the application. Several studies have shown that the electromagnetic frequencies of oils actually change with positive thought. It has been proven that negative thoughts lower oils frequencies by 12 MHz, positive thought raises it by 10 MHz and prayer raises the healing vibrations of essential oils by up to 15 MHz!

Thank you to Young Living's Essential Oils Desk Reference for some of the information for this article. Highly recommended!

## A Series of Symbols

Many people ask us about the symbols they see us wearing or the symbols in and around the shop quite often. Each newsletter we will try and explain one of these symbols. This newsletter we will look at the Triskele (Triple Aspect which represents threefold interconnectedness). My daughter wore this symbol to school and kids called her a "witch" (and not in a positive way). Well, it is true that today's witches do wear this symbol, but this symbol is also found in almost every culture, tradition, and yes, religions worldwide. The most common one seen today is the Celtic Triskele which shows the trifold in a celtic knotwork form. Another place that this is seen on a regular basis, and most likely the reason why my daughter was called a witch, is on the popular television show "Charmed". In this program there are three sisters who are witches, and they are the "charmed" ones. The symbol for them is the power of three. Although this symbol is a powerful symbol of three, it is certainly not just for witches.

The Triskele or Threefold Interconnectedness has many different meanings. It is multicultural and has no gender bias. In its feminine form it is the symbol of Maiden, Mother, Crone (Sage). In the masculine form it is Son, Consort (Companion or Partner), and Sage. It is a symbol of Holistic Health, representing Mind, Body & Spirit. It is also a symbol for everything living as it represents Life, Death, and Rebirth. In the Pagan culture the celestial bodies were very important. To these nature based souls, the significant symbology of the Triskele would be the Sun, Moon and Earth. This is a very powerful trinity which effects all life. In other cultures, and religions worldwide, it has come to be known as the symbol of Heaven, the Earthly Plane, and the Underworld. And finally for the Christians it is a sacred symbol for the Father, Son, and Holy Spirit.

Just another reason why one should not make a judgment about anything until one is educated. Many symbols are used today that have very different meanings, and we must first learn about these before we make a decision about someone who is wearing them. The Triskele is a universal symbol of the sacred interconnectedness that we all share and maybe, just maybe, it is a symbol we should all be wearing?
