

Another medium for e-Commerce marketing brought to you by Auto Technologies Inc.

Connect with the **BIGGEST** Brand Names on the Internet

The **EASIEST** and **MOST AFFORDABLE** way to advertise online.

The Internet has always had promise of connecting customers to business but until now this has mainly benefited large companies. Our Local Ad Link network gives you the ability to get online and get online fast!

Did you know that 63% of people search online before they make a purchase in a store?

HOW DOES IT WORK

Our Local Ad Link Network uses geo-targeting technology which determines the physical location a website visitor and then delivers different content to that visitor based on his or her location.

Traditionally newsprint and Yellow Page advertising is becoming less effective each year. Already 54 % of people have traded in their old Yellow Pages and solely search online and this number is growing daily. Newspaper readership is rapidly declining while the cost to place a classified has remained steady. Your customers are already searching online; Auto Technologies / My U.S. Network / Local Ad Link Network can help make your business stand out.

Local cable and radio are changing – with the arrival of TIVO and DVR systems, people are skipping commercials more than ever and now with satellite radio such as XM and Sirius, local programming is becoming harder and harder to find. Reaching new customers in your local area is vital to your continued success and ATI / My U.S. Network / Local Ad Link network's exclusive geo-targeting software can put your local community back in touch with your business within 24 hours.

Why you need Auto Technologies / My U.S. Network / Local Ad Link – Now!

Utilizing our exclusive geo-targeting software, your business is now pushed out to over 100 search engines within your local zip code specific area.
