

ACRYSIRUP

Rapid Curing Coating System

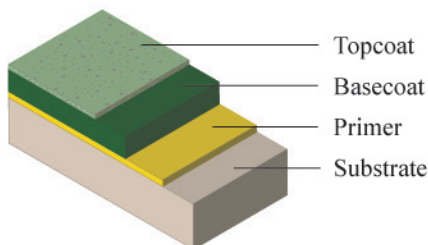

Applications

Food Manufacture, Supermarkets, Commercial Kitchens, Refrigerated Warehouses,
Public High Traffic Facilities, Warehouses, Parking Lots, Road Traffic Paint

Product Description

ACRYSIRUP is a reactive resin system, which consists primarily of methylmethacrylate (MMA) monomer, acrylic polymers, mineral fillers and pigments, that under the correct application and curing conditions will give a durable and high quality finish.

Benefits

1. Rapid Curing Time
~Cures within 2 hours
2. Low Temperature Curing
~Cures at temperatures as low as -30°C
3. Excellent Chemical Resistance
~Especially to organic acids, inorganic acids and alkalis
4. Outstanding Physical Properties
~High load bearing and high impact resistance
5. Excellent Weatherability
~Suitable for outdoor use
6. Can be applied to a wide range of substrates including Concrete and Asphalt.
