

# EVANS CAMELID S/G/L PELLET

Alpaca and Llama (E 1085)

## PRODUCT DESCRIPTION

Evans Camelid S/G/L PELLET is designed to meet the high demands of cria growth and female gestation and lactation. Evans Camelid S/G/L Pellet provides the proper balance of protein, energy, vitamins and minerals for the professional breeding operation.

## FEATURES AND BENEFITS

### High-Fiber Level

High-Fiber Level — A combination of quality fiber sources, including soy hulls and alfalfa, in a pelleted form provides highly digestible and fermentable fibers to help maintain a healthy digestive environment.

### Chelated Trace Minerals

Chelated Trace Minerals — Optimum levels and ratios are supplied to ensure a balanced diet for maintenance and performance. The more biologically available chelated forms are added to help minimize the detrimental effects of mineral imbalances in water and forages.

### Vitamin E and Selenium

Vitamin E and Selenium — A high level of Vitamin E and Selenium is added to help guard against deficiencies and maintain optimal health and metabolism.

### B-Complex Vitamins (including Biotin, Niacin, and Thiamin)

B-Complex Vitamins (including Biotin, Niacin, and Thiamin) — B vitamins are involved in the metabolism of carbohydrates, fat and protein and are important for the growth and health of skin, wool and hooves.

### Yeast Culture

Yeast Culture — A high level of yeast culture is added to help promote a functional microbial fermentation, sustaining nutrient digestibility and utilization with fewer digestive problems.

## FEEDING DIRECTIONS

### DAILY GUIDE:

Blue Seal Evans Camelid Supplements are formulated to complement grass hay and pasture that tests 10% to 14% protein and 55% to 60% TDN with a potassium level of less than 2.5%.

### As a Starter:

Feed Blue Seal Evans Camelid S/G/L at a rate

# EVANS CAMELID S/G/L PELLET

Formulated to meet the demands of cria growth and female gestation and lactation.

## GUARANTEED ANALYSIS

Crude Protein, min	15.50%
Crude Fat, min	4.00%
Crude Fiber, max	14.00%
Calcium, min	1.75%
Calcium, max	2.25%
Phosphorus, min	1.60%
Salt, min	0.75%
Salt, max	1.25%
Copper, min	35 ppm
Selenium, min	0.9 ppm
Zinc, min	700 ppm
Vitamin A, min	20,000 IU/lb
Vitamin E, min	325 IU/lb

## INGREDIENTS

Soybean Hulls, Wheat Middlings, Ground Corn, Soybean Meal, Dehydrated Alfalfa Meal, Wheat Flour, Cane Molasses, Monocalcium Phosphate, Beet Pulp, Corn Distillers Dried Grains, Yeast Culture, Calcium Carbonate, Vegetable Oil, Salt, Magnesium Oxide, Sulfur, Zinc Oxide, Zinc Sulfate, Zinc Proteinate, Manganese Oxide, Manganese Sulfate, Manganese Proteinate, Calcium Iodate, Cobalt Carbonate, Cobalt Sulfate, Cobalt Proteinate, Copper Sulfate, Copper Proteinate, Ethylenediamine Dihydriodide, Iron Proteinate, Ferrous Sulfate, Sodium Selenite, Biotin, Riboflavin, d-Calcium Pantothenate, Niacin, Choline Chloride, Vitamin B12 Supplement, Folic Acid, Thiamine Mononitrate, Pyridoxine Hydrochloride, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Menadione Sodium Bisulfite Complex (Source of Vitamin K Activity), L-Ascorbyl-2-Polyphosphate, Dried Saccharomyces Cerevisiae Fermentation Extract, Dried Aspergillus Oryzae Fermentation Extract, DL-Methionine, Ethoxyquin (a preservative), Mineral Oil, Artificial and Natural Flavoring.

MANUFACTURED BY

of 0.33 to 0.50 lb. (150 g to 227 g) per 50 lbs. (22.7 kg) of body weight per head per day. Blue Seal Evans Camelid S/G/L is recommended as a supplement from 2 to 3 months through 9 to 12 months of age.

### **For Late Gestation and Lactation:**

#### **ALPACAS:**

Feed Blue Seal Evans Camelid S/G/L at a rate of 1.0 lb. (454 g) per head per day for the last 4 weeks of Gestation and 1.0 to 1.25 lbs. (454 g to 567 g) per head per day for Lactation. Feeding rate depends on Alpaca size (150 lb/68.1 kg average), forage quality, body condition score, and level of milk production.

#### **LLAMAS:**

Feed Blue Seal Evans Camelid S/G/L at a rate of 1.25 to 1.50 lbs. (567 g to 681 g) per head per day for the last 4 weeks of Gestation and 1.50 to 1.75 lbs. (681 g to 794 g) per head per day for Lactation. Feeding rate depends on Llama size (300 lb/136.2 kg average), forage quality, body condition score, and level of milk production.

#### **Comments:**

Nutrient requirements of Llamas and Alpacas have not been fully documented. Kent Nutrition Group, Inc. makes no warranty as to the nutritional adequacy or results which may be obtained from the use of this product.

The suggested feeding program above is intended solely as a guide. The variables of management, environment, and breed may dictate changes in the animal's dietary requirements.

THIS FEED CONTAINS SUPPLEMENTAL COPPER. DO NOT FEED TO SHEEP.
