

INSTALLATION INSTRUCTIONS

MODEL: 44100 SIT ON TOP KAYAK CART

THANK YOU FOR YOUR PURCHASE. We take a **SATISFACTION GUARANTEED** approach to our products and our business, if you are not satisfied in any way, or if we can provide you with assistance or information, PLEASE call us TOLL FREE at 800-346-7332 or e-mail us at contactus@mygearup.com.

The GEARUP™ SIT ON TOP KAYAK CART is designed to hold one non-motorized kayak or canoe. Total weight of kayak or canoe should not exceed 200lbs. **NEVER ATTEMPT TO USE THIS CART AS A TRAILER PULLED BEHIND ANY MOTORIZED VEHICLE.**

Bill of Material:

| | | | |
|----|--------|----------------------------|---|
| A. | 44100C | Sit On Top Kayak Cart Base | 1 |
| B. | 44100D | Adjustable Upright Arms | 2 |
| C. | 44100E | Wheel | 2 |

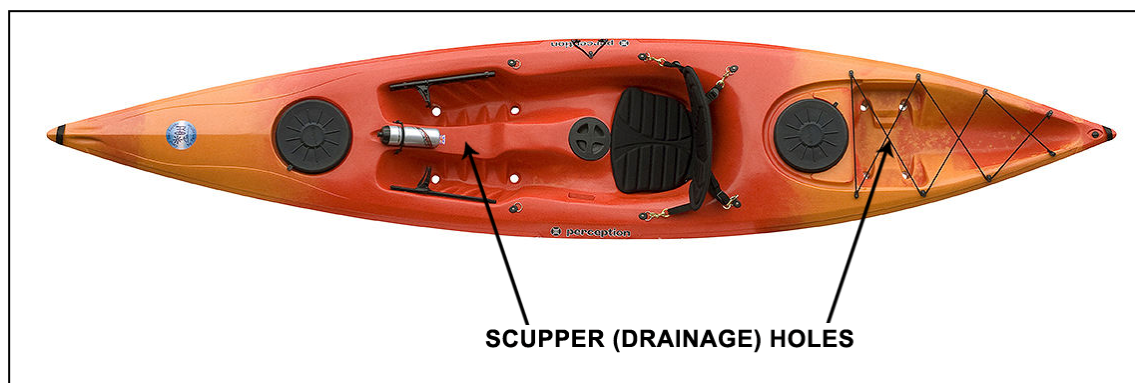

To attach wheels simply remove swivel pin from each end of the cart Axle, slide wheel onto axle, and replace the swivel pin.

To add Adjustable Arms, loosen the knobs on each side, and insert one of the Adjustable Arms into the vertical tube as shown in picture to right. Leave loose so you can adjust to your boat, then tighten once fitted.

The Gear Up Sit on Top Kayak Cart is designed to fit either into your scupper holes or configured to go around the outside of your hull.

USING THE SIT ON TOP KAYAK CART WITH SCUPPER (DRAINAGE HOLES)

With boat lying flat, choose scupper (drainage) holes you want to use. Adjust the upright arms so they pass through those drainage holes. Stand next to boat slightly behind the scupper holes you will use. Roll boat over and balance it on its side, propping it up with your leg if necessary. Slide the upright arms through scupper drainage holes and into the boat. Roll the boat back over so it's now resting on the cart. You are now ready to pull or push your boat to the water. Upright bars may tilt toward you when you pull or tilt away from you when you push the boat. This is normal.

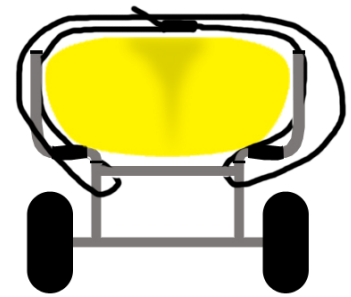

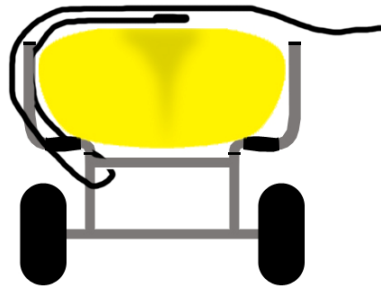

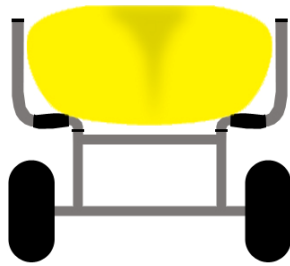

USING IT AS A CART

Set the cart next to the boat. Pick up one end of the boat and place the boat on the cart as near the center of boat as possible. Experiment with your boat to find the best spot to place the cart. Pass a “cam buckle” strap (not included) around one leg of the cart. Do NOT use bungee cords. Take strap over the top of the boat to the other side. Pass the strap around the opposite leg of cart and back up over the boat. Run the strap through the cam buckle and cinch tightly. When you arrive at your destination simply remove the strap, lift boat off cart, disassemble and stow cart.

Strapping Down a Kayak or Canoe
on Assembled Cart

WARNING

DO NOT STEP, CLIMB, OR HANG ON THE CART

DO NOT ALLOW SMALL CHILDREN OR PETS TO PLAY IN, ON, OR AROUND THE CART.
IMPROPER INSTALLATION AND/OR USE OF THE CART COULD CAUSE SERIOUS INJURY
AND/OR DEATH.

User assumes total responsibility for the proper installation and use of this product. GearUp Inc. will not be held liable for damages or injuries resulting from the installation and/or use of this product. If the installer or user is unsure of the requirements described herein, it is his/her responsibility to seek adequate professional assistance or contact our customer care center at 800-346-7332. **REMEMBER** – stored items can fall resulting in injuries and/or property damage when not properly installed or used.

THANK YOU again for your purchase. We have worked hard to make sure the product you purchased is of top quality and that all parts and necessary instructions have been included. If we have overlooked anything, or if we can be of assistance, help walk you through installation, or offer tips on how to use our product, **PLEASE** give us a call on our **Toll Free Customer Hotline 800-346-7332. YOUR SATISFACTION IS OUR TOP PRIORITY.**
