Mission Statement

Parents and guardians are the first educators of their children. The mission of Blessed Sacrament Catholic Preschool is to support and enable parents and guardians to carry out this most important task. We believe in an atmosphere of learning which fosters the development of Catholic Christian morality and spiritual values. During the first years of a child's life, his/her potential can be positively influenced by establishing a strong foundation. We pledge excellence in promoting the development of this foundation of both learning skills and spiritual development.

Goals

- To Develop and maintain a partnership with parents/guardians.
- To provide an environment rich in spiritual values under the direction of professional staff who are people of faith.
- To promote developmentally appropriate early childhood practices by providing physical, social, emotional, creative and spiritual learning activities.
- To protect and foster the child's health and safety.
- To promote the child's foundation for future development both at home and at school.
