

Horrors of Vaccination Exposed

"The CDC is a very troubled agency and it's not just me saying that. There has been four separate intensive federal investigations, by the United States Congress, a three year investigation: 2001, 2002, 2003, by the United States Senate Tom Coburn's committee, by the Inspector General of HHS in 2008, by The Office of Research Integrity in 2014.

...and all of them have painted the CDC as a cesspool of corruption. Of an agency that has become an absolute subsidiary of the pharmaceutical industry, and that has become a sock-puppet, a spokesperson, a shill for the industry.

The CDC is not an independent agency.

It is a vaccine company.

The CDC owns over 20 vaccine patents. It sells about 4.6 billion dollars of vaccines every year. Its primary metric for success in all of the departments in the agency are vaccine sales."

Vaccination is a barbarous practice and one of the most fatal of all the delusions current in our time.

Conscientious objectors to vaccination should stand alone, if need be, against the whole world, in defence of their conviction.

Horrors of Vaccination Exposed

"Vaccines and serums are employed as substitutes for right living; they are intended to supplant obedience to the laws of life. Such programs are slaps in the face of law and order. Belief in immunization is a form of delusional insanity."

Herbert Shelton D.C.
