

If you see a yacht at sea,
you're in desperate need
of a vacation.
It is a hole in a leather sofa.

Marlon Brando was in an acting class taught by Stella Adler, who once instructed the class to act like chickens, adding that a nuclear bomb was about to be dropped on them. While most of the class clucked and ran around wildly, Brando sat calmly and pretended to lay an egg. When asked why he chose to react that way, Brando said, "I'm a chicken—what do I know about bombs?"

Apparently covid is the first virus in human history that doesn't spread at award shows, ruling class galas, and obnoxious birthday gatherings on Martha's Vineyard.

Pianist Anton Rubinstein liked staying in bed much too late, but his wife figured out a clever way of getting him out of bed. She would play incomplete chords on the piano, which bothered him so much that he would get out of bed and complete the chord. While he was up, his wife would strip the bed to prevent him from getting back on it.

Charlie Chaplin lived 88 years. He left us 4 statements: (1) Nothing is forever in this world, even our problems. (2) I love to walk in the rain because no one can see my tears. (3) The most lost day in life is the day we don't laugh. (4) Six of the best doctors in the world: 1. Sun 2. Rest 3. exercise 4. diet 5. Self-respect 6. Friends Keep them in all stages of your life and enjoy a healthy life... If you see the moon, you will see the beauty of God... If you see the sun, you will see the power of God... If you see a mirror, you will see God's best creation. So believe it. We are all tourists, God is our travel agent who has already defined our routes, bookings and directions... trust him and enjoy life. Life is just a journey! So live today! Tomorrow may not be.

Me: Look, a turtle!**

**Don't sign those electronic
keypads at the hospital, doctors
office or urgent care. They have
verbiage in there that gives
them permission to vaccinate
you. Tell them you want the hard
copy to sign, then write NO
BIOLOGICS/VACCINES. This
happens even if you're going in
for surgery. I worked in a
hospital, and they did this often.
There were several ICU patients
they vaccinated while sick,
which is also so wrong. Don't
leave your loved ones alone in a
