This is Pelosi yesterday for her photo op after impeaching Trump. The interesting part is members of Congress don't get secret service details. Think about that for a moment.

If you zoomed in closely you can see that these are US Marshalls. Anyone care to guess why they're all female? When you are under arrest with 24 hour supervision and are female, they don't put a man on your details.

These cops LITERALLY watch her take a dump 2 times a day and watch her get dressed to make sure she isn't hiding a weapon. Nancy Pelosi is 100% arrested. Just enjoy the show...

To Nancy Pelosi, thank you for all of the info you've provided us from your laptop, especially your email threads which revealed the pending secret sale of U.S. corporation General Electric [GE] to the Chinese Communist Party for \$5.4 Billion, the signing of which was to take place today [1/10/21] in Pakistan.

The huge power outage Pakistan just suffered (40% of the country) was Trump's warning that no American defense contractor will be allowed to be sold to China.
