Try This...

Submitted by Myrna Bianco, a Faithful Our Town Reader

How smart is your right foot?

This is hysterical. You have to try this.

It is absolutely true. I guess there are some things that the brain cannot handle.

1. While sitting in a chair, lift your right foot off the floor and make clockwise circles.

2 Now, while doing this, draw the number '6' in the air with your right hand. Your foot will change direction.

I told you so! And there is absolutely nothing you can do about it! You and I both know how stupid it is, but before the day is done you are going to try it again, if you've not already done so.
