Richard Phillips survived the longest wrongful prison sentence in American history. He was locked up in 1972 at the age of 26 and wasn't released until 2018, aged 72. He spent 45 years in jail for a crime he didn't commit.

A write up of mine from last year.

What you are all about to go through is going to be very very painful.

You are about to learn that your entire lifetime's and generations before you have been nothing but LIES.

It is going to take a good 6 months to get over this. Some may never. The entire planet is going to be Re-wired. Every system and every technology that you know now will be obsolete.

A lot of money is coming back nations that have been Raped, Pillaged, Genocided & War Torn. Many will return to these countries to build & rebuild under good and much smaller governments, 10% the size of what they are now. This will enable homeless to get off the streets and into homes. There will be no more wars and no more poverty. 6000 cures including UV light therapies will be released to cure every disease known to man that were created in labs and also through poisons in Vaccines and sprayed on foods etc.

Many industries will be no longer and replaced with new industries through new technologies and history to be rewritten. Many fields will need to completely stop in order to be re-wired and pull out all obsolete systems.

Think Education, Medical &

Computer Systems. There will be lots of training and re-training going on. Every man, woman & child deserves peace and freedom to achieve what they desire..

**This is George Washington's grave.
It's surprisingly understated compared to
number one on the list.**

I was quiet, but
I was not blind.

*“So far, we’ve learned the subject belongs to a domestic terror network called the **PTA.**”*

A person is sitting on a beach at night, looking up at a bright meteor streaking across a starry sky. The meteor is a long, glowing line of light that curves across the dark blue and black sky, leaving a long, bright trail. The person is silhouetted against the dark water of the ocean. The sky is filled with stars, and the horizon is visible in the distance.

Growth is painful.
Change is painful.

But nothing is as painful as staying
stuck somewhere you don't belong.
