Hmm, the NWO must be pissed that Trump pushed the vax out early, ensuring it would have the status of experimental and therefore could not be mandated.

What if he had intelligence that a mandated vaccine was a core part of the NWO 2030 agenda all along? Like going back as far as the 322 club's origins? (C=3 V=22).

*322 = skull & bones  
secret society*

*CV = Covid*

How many wrenches did he throw into [their] machine?

Just me looking for the big picture and observing how Trump destabilized the NWO's plan. Trump's actions ensured that anybody who doesn't want the vax, doesn't have to take it.
